

WE HAVE IMPROVED OUR SUPPLEMENT MATERIALS PROCESS!

In an effort to better meet your needs, we have combined the program supplement and post-test into one PDF file. The test is located in an appendix at the end of the program supplement.

The due date for completing the post-test for continuing education credit is listed online on the GE Healthcare Learning System (HLS) on the program description screen.

To display the combined Program Supplement and Test PDF file for this program, please close this file and click the Supplement link on this program's GE Healthcare Education web page.

Thank you for choosing GE TiP-TV for your continuing education needs.
