TiP-TV Training in Partnership

## Imaging Professionals

Computed Tomography, Magnetic Resonance, Mammography,  
Nuclear Medicine/PET, Ultrasound and X-ray

September-October 2008

## What is TiP-TV?

Training in Partnership Television™ (TiP-TV), launched in 1993 as a satellite network, provides distance education to imaging technologists. Today, TiP-TV programs are available via satellite as well as online.

A team of GE clinical educators research, write, and present TiP-TV's imaging programs. Programming has grown to include Computed Tomography, Magnetic Resonance, Mammography, Ultrasound, Nuclear Medicine/PET and X-ray.

GE Healthcare Learning System

Welcome!  
With staff and patient education, our mission at GE Healthcare is to provide our customers with opportunities to gain the knowledge and skills to optimize equipment usage, clinical practice and patient care. Offerings include clinical, technical service, patient, and leadership education.  
For more information on GE Healthcare Education Products and Solutions, please visit the education pages of the GE Healthcare website.

New User?  
Please have your registration code handy for the new user registration process. If you do not know your registration code please contact your techy coordinator or contact HLS support. New User?

Returning Users  
1. Enter your User ID and Password.  
2. Click on "login" to proceed to the main window.  
Note: If this is your first time logging in to this system, you will be taken to password update and retrieval screen prior to reaching the user homepage.

What if I forgot my password?  
If you forgot your password, click here to have it emailed to you. You will need your User ID and access to your email account to retrieve your Password.

What if I forgot my ID?  
If you forgot your ID, click here to retrieve it. You will need your email id to retrieve your ID.

Staff can tune in to any of the TiP-TV satellite broadcasts aired in your facility each week. Programs with this symbol  may be videotaped for later viewing. We encourage you to videotape programs and create your own CE library!

Most TiP-TV programs are also available online at our Education Web Site. These programs are available 24 hours a day, seven days a week.

## TiP-TV Program Schedule

For the most current course information including course descriptions, schedules, and supplements, please visit: [gehealthcare.com/education](http://gehealthcare.com/education) > Click on Quick Links > Click on Search for Diagnostic Imaging Courses

## TiP-TV Online Programs

To view online programs, visit: [hls.gehealthcare.com](http://hls.gehealthcare.com) Click User Guides – the instructions will guide you on how to view TiP-TV programs on the internet, take your test and print out a certificate of completion immediately upon passing the test.

## Earn Continuing Education (CE) Credit Online

Diagnostic Imaging Professionals can earn continuing education credit through the Healthcare Learning System (HLS) web site for both satellite broadcasts and online courses. In addition, online courses are viewed in the HLS. A tutorial is available online to help you create an account and log in. Please direct your staff to: [hls.gehealthcare.com](http://hls.gehealthcare.com)

## New TiP - TV Programs 2007-2008

See Toolkit program schedules for a complete listing of programs offered.

### CT TiP TV

CT: 4D Imaging in Radiation Therapy Planning  
CT: Anatomy and Associated Pathology  
CT: Bone Mineral Densitometry  
CT: Musculoskeletal Injury and Pathology  
CT: Nanotechnology in Medicine - A New Revolution  
CT: Newshour 2007  
CT: Newshour 2008  
CT: Patient Dynamics - The Young and the Elderly  
CT: Pediatric CT  
CT: Radiation Dose - Science and Procedure  
CT: The Physiological Component  
CT: Vascular Anatomy and Pathology

### Mammography TiP-TV

Mammography: Breast Cancer - The Role of PET Imaging  
Mammography: Breast Imaging - A Multimodality Approach  
Mammography: Family History  
Mammography: Full Field Digital Mammography  
Mammography: Histopathology - Tissue Diagnosis  
Mammography: Masses  
Mammography: Positron Emission Mammography (PEM)  
Mammography: Stereotactic - Start to Finish  
Mammography: The Mammographer's Armamentarium  
Mammography: The Medical Audit  
Mammography: Understanding the Risks

### MR TiP-TV

MR: 3D Surgical Planning  
MR: ACR Accreditation Update  
MR: Artifacts and Fixes  
MR: Breast Imaging in High-Risk Patients  
MR: Cardiac MR Imaging  
MR: Fast Imaging Techniques  
MR: Magnetic Resonance guided Focused Ultrasound Surgery  
MR: Newshour 2007  
MR: Newshour 2008  
MR: Understanding MR Coil Technology  
MR: What Is Diffusion Tensor Imaging?  
MR: What to Expect from MR guided Focused Ultrasound Surgery

### NM/PET TiP-TV

NM/PET: Accreditation of Nuclear Medicine and PET Laboratories  
NM/PET: Back to Basics - PET/CT  
NM/PET: Lymphoscintigraphy  
NM/PET: Basic Nuclear Medicine and PET Physics - Part 1  
NM/PET: Basic Nuclear Medicine and PET Physics - Part 2  
NM/PET: Molecular Imaging Update  
NM/PET: Nuclear Medicine and PET Potpourri  
NM/PET: PET/CT in Breast Cancer  
NM/PET: PET/CT in Colorectal Cancer  
NM/PET: PET/CT in Lung Cancer  
NM/PET: PET/CT in Lymphoma  
NM/PET: Veterinary Nuclear Medicine - "The Other Pet Scanning"

### Leadership TiP-TV

Change: Managing Transition  
Evaluating Workflow  
Performance, Quality, and Service  
The AHRA 35th Annual Meeting: An Overview - Part 1  
The AHRA 35th Annual Meeting: An Overview - Part 2  
The Customer Economy  
Understanding the Patient Psyche

### Ultrasound TiP-TV

US: 3D/4D Ultrasound of the Fetal Heart  
US: Examining Cerebrovascular Circulation  
US: Fetal Echocardiography Update  
US: Lower Extremity Arterial Segmental Physiologic Evaluation  
US: Renal and Mesenteric Artery Evaluation  
US: The First Trimester OB Study  
US: The First Trimester OB Study Episode II  
US: Transesophageal Echocardiography (TEE)  
US: Ultrasound - Past, Present, and Future  
US: Upper Extremity Arterial Duplex Evaluation  
US: Upper Extremity Venous Duplex Evaluation  
US: Vascular Ultrasound - A Comparison with Other Modalities  
US: Venous Examination

### X-Ray TiP-TV

XR: Carotid Stenting for Stroke Prevention  
XR: Conventional Imaging Then and Now Part II  
XR: Digital Imaging in Radiography  
XR: Iodinated Contrast Fundamentals  
XR: Imaging Bits and Bytes  
XR: Keeping Pediatric Patients Safe  
XR: Keeping Pediatric Patients Safe - Radiation Management  
XR: PACS - Save the Data  
XR: Pain Management  
XR: Radiation Protection and Safety  
XR: Totally Hip!  
XR: Vertebroplasty and Kyphoplasty

## Infectious Disease Forum for Imaging Professionals

In this program a panel of experts will describe the impact of healthcare-associated infections on morbidity, mortality, organizational resources, and the delivery of patient care. Analysis of the capacity to recognize mechanisms with which these infections are transmitted, including why these conditions are problematic, and the methodologies used to reduce or prevent the spread of infection, are also part of this discussion.

Wed, Sep 3, 2008: 2:00 PM to 4:00 PM ET

Thu, Sep 25, 2008: 10:00 AM to 12:00 PM ET

Tue, Oct 7, 2008: 1:00 PM to 3:00 PM ET

Thu, Oct 23, 2008: 9:00 AM to 11:00 AM ET

## TiP-TV Online in 2009

Due to the overwhelming popularity of TiP-TV Online, beginning January 1, 2009, we will no longer be broadcasting TiP-TV programming via satellite.

What does this mean to you as a TiP-TV Subscriber?

- No more worries about missing a program
- No more worries about taping a program
- Access to all programs all the time

For those of you who have been viewing programs via satellite as of January 2009, you can view programs within the Healthcare Learning System.

If you have been watching TiP-TV programs via satellite and want to schedule a personalized online training session, please contact us at:
