

## S/5 Anesthesia Monitor Distance Learning Outline

### Course Summary:

Participants in the S/5 Anesthesia Monitor course will receive a brief clinical overview of monitored parameters. Lectures will detail the operation, software configuration, hardware and communication of the monitors. Extensive hands-on labs are designed to reinforce the concepts learned during lecture. Training for the AS/3 Anesthesia Monitor is included in the class.

### Course length:

2 days -- Lecture blocks in the morning and afternoon sessions are two hours in length, with structured labs to be performed off-line between lectures.

### Location:

Remote Instructor-led: presentations viewed via WebEx and information delivered via Telephone conferencing.

### Objectives:

At the end of the class students should be able to:

- Understand basic operation and configuration of the monitor
- Understand all subassemblies, their functions, and their communication pathways
- Successfully disassemble and assemble components for replacement
- Perform both system checks, and planned maintenance for the entire system
- Troubleshoot hardware and software problems
- Pass a written test with a minimum score of 70%

### Equipment to be taught:

- S/5 Anesthesia Monitor
