

# Technology Advances. Continuing Education is Key.

TiP-Ed<sup>SM</sup> Online (formerly TiP-TV<sup>®</sup>) provides continuing education for imaging professionals that can help your staff meet the challenges of advancing technology.

Changes in today's technology demand peak performance. The performance of your staff significantly impacts the quality of patient care. Your department contributes to each patient's diagnosis or treatment challenging your staff to keep up with the latest technologies, techniques, and procedures.

TiP-Ed Online helps contribute to your staff's continuing education requirements with program topics that may include:

- Basic imaging techniques and procedures
- Disease specific imaging techniques and procedures
- Updates on new equipment technology
- Radiation safety and dose reduction

TiP-Ed Online offers more than 200 accredited programs on timely topics and on the most recent imaging technologies. With featured segments from industry experts and demonstrations of the latest procedures and techniques, we can help your staff meet the challenges of advancing technology.

TiP-Ed Online supported modalities:

- Computed Tomography
- Mammography
- Interventional Cardiology
- Nuclear Medicine/PET
- Leadership
- Ultrasound
- Magnetic Resonance
- X-ray

In addition to modality specific programming, we've developed Leadership programs designed for leaders of diagnostic imaging departments. This results-oriented series focuses on the challenging issues confronting today's imaging department directors, administrators, supervisors and other team leaders.

Recognizing that Information Technology is becoming a key factor for quality patient care, our recently developed Information Technology programs will help to improve staff efficiency and improve patient care.

TiP-Ed Online can help:

- Recruit and retain staff
- Optimize staff's skills
- Increase staff's productivity
- Improve patient care
