

TEXTBOOKS

Reference Manual for Magnetic Resonance Safety, Implants and Devices: 2005 Edition (Copyright 2005, Biomedical Research Publishing Group, Los Angeles, CA). The *annually-revised*, **Reference Manual for Magnetic Resonance Safety, Implants and Devices: 2005 Edition** is an indispensable tool for radiologists, MRI technologists, and MRI facility managers. This internationally acclaimed textbook series is a comprehensive yet concise information resource that includes guidelines and recommendations for MR safety that are based on the latest peer-reviewed articles as well as documents developed by various professional organizations. Importantly, this manual is the premier source of information for implants and devices tested for safety in the magnetic resonance environment. **"The List"** contains tabulated information for over 1,300 objects, including data for approximately 300 objects tested at 3.0-Tesla. Coverage spans the full range of metallic implants and devices that may be encountered in patients referred for MR procedures.

Discounted price - \$45.00 (Regular price, \$49.95)

Magnetic Resonance Procedures: Health Effects and Safety (Copyright 2001, CRC Press, Boca Raton, FL) Written by 15 well-known experts in the field, this book is the most authoritative and comprehensive reference text on magnetic resonance bioeffects and safety. *Magnetic Resonance Procedures: Health Effects and Safety* discusses the bioeffects of static magnetic fields, radiofrequency-induced heating, acoustic noise, the safety of metallic implants, the use of MR in pregnant patients, contrast agent safety, and handling patients with claustrophobia. In the wake of demands for increased patient safety and proper patient management along with the expanding use of MR procedures, this book is essential for all MR healthcare workers.

Discounted price - \$60.00 (Regular price, \$89.95)

Kinematic MRI of the Joints: Functional Anatomy, Kinesiology, and Clinical Applications (Copyright 2001, CRC Press, Boca Raton, FL) This book is the first authoritative text on these important magnetic resonance techniques. *Kinematic MRI of the Joints: Functional Anatomy, Kinesiology, and Clinical Applications* presents information on pertinent anatomy, kinesiology, and pathokinesiology for each joint. In addition, multiple case examples illustrate the usefulness of kinematic MRI for the detection and diagnosis of various musculoskeletal conditions.

Discounted price - \$100.00 (Regular price, \$119.95)

VIDEOTAPE/DVD PROGRAMS

MAGNETIC RESONANCE PROCEDURES: HEALTH EFFECTS, SAFETY, AND PATIENT MANAGEMENT*

An accredited video/DVD program with manual designed for those professionals who work directly in the magnetic resonance environment and interact with patients in a professional capacity. This video/DVD program was produced by Educational Symposia in accordance with the Accreditation Council for Continuing Medical Education (ACCME) Essential Elements and Standards.

Physicians: Educational Symposia is accredited by the ACCME to sponsor continuing medical education for physicians. Educational Symposia designates this educational activity for a maximum of one category 1 credit toward the AMA Physician's Recognition Award. The tape/DVD is designated for one category 1 credit. The time necessary to complete the program is 1 hour.

Technologists: Please call Educational Symposia regarding the availability of Category A CE credit. All video/DVD course participants are required to take a test in order to be awarded credit.

Order from:

Educational Symposia
4515 George Road, Suite 355
Tampa, Florida 33634
PHONE (800) 338-5901 (toll-free, U.S. & Canada) or (813) 806-1000 (direct).
INTERNET - Order using a credit card number at: <http://www.edusymp.com> or www.educationalsymposia.com

MAGNETIC RESONANCE IMAGING SAFETY FOR NON-MRI TRAINED PERSONNEL*

This program is intended for hospital staff including non-radiology medical healthcare providers and the general population of personnel who might occasionally enter the magnetic resonance (MR) environment. This video/DVD series was produced by Educational Symposia.

***Special pricing if you are ordering both programs.**
