Dear Customer:

Dear Customer,

As you may be aware, the Smartpac system was discontinued in October 2003 and replaced with the Transport Pro (See links below). Our records indicate that you may have purchased Smartpac batteries within the last 12 months.

Part Number	Part Description
900151-300	ASSY BATTERY 12V 3.0AH
900151-400	ASSY BATTERY 12V 2.0AH
900151-001	ASSY BATTERY 12V 2.0AH

This letter is to inform you that GE Healthcare will no longer manufacture these.

We are, however, providing you this final opportunity to stock up on batteries while quantities last. Stock will be available on a first come first serve basis.

To place your order, please call 800 558 7044 and ask to speak to a customer support representative.

Sincerely,

Mike Barrier
Service Parts Solutions Manager
