

Drapes and Sterile Covers

Drapes and Sterile Covers

All GE drapes and sterile covers for OEC equipment are custom designed to provide a tight fit with minimal excess plastic for full equipment protection during urology, cardiology or surgical procedures. Each drape or cover is made of durable polyethylene material for quick and easy cleanups.

MiniView C-arm Drape

OEC MiniView 6600/6800 C-arm Drapes

- Sterilized for patient / physician safety
- Custom designed to fit your MiniView system
- Latex free for patient care
- Prevent costly repairs with our durable polyethylene material that protects the C-arm, footswitch, and keyboard against entrance of potentially damaging fluids
- Quick and easy to clean up
- Replace image intensifier guard regularly for superior viewing
- Order individually or in disposable packs

Apix Table Control Cover

Gray Footswitch Cover

Keyboard Cover

MD Table Control Drape

IR Remote Hand Cover

Universal 1/2 Drape (with adhesive ties)

- Sterilized for patient/physician safety
- Allows free movement of C
- Adhesive straps allow you to manipulate plastic around the C for a nice comfortable fit
- Easy to use
- Latex-free for patient care
- Protects your equipment for a longer lasting life
- Prevents contaminants from getting into hard to clean areas
- Offers quick and easy clean-up

Vascular Drape

- Sterilized for patient/physician safety
- One drape does it all
- 158" long x 87" wide
- See through window allows surgeon to access anatomy at multiple points w/o moving or disturbing the drape
- Window size 14" x 8"
- Latex-free for patient care
- Perfect drape for AAA stent cases
- Pockets on both sides for collection
- Rectangular size for complete patient coverage
- Offers quick and easy clean-up

9900 Elite Pointer

- Allows physician to stand 3 feet away from workstation and interface comfortably
- Maintain sterility
- Allows technician to focus on other pressing issues
- Promotes accuracy
- 18" in length

Lithotomy Leg Supports

All GE stirrups fit and function on universal OR side rails. Each stirrup is simple for the OR staff to attach, adjust and remove.

Pediatric Stirrups

- Under-calf stirrup designed for children
- Padded and adjustable
- 150 lb (68 kg) weight limit

SoftTouch Pneumatic Stirrups

- Pneumatic counter-balance for easy adjustment
- 83 lb (37 kg) weight limit

GE OEC Stirrups

- Comfortable squeeze grips allow easy intra-operative adjustment of leg positions, without side rail adjustments or breaking the sterile field
- Cushioned pads protect the patient's legs
- 300 lb (136 kg) weight limit

GE OEC Boots

- Comfortable squeeze grips allow easy intra-operative adjustment of leg positions, without side rail adjustments or breaking the sterile field
- Ergonomically molded boots include soft pads that keep the foot in place even in elevated lithotomy positions
- 300 lb (136 kg) weight limit
