Injectors

Medrad® Stellant FLEX® Injection System for Contrast Enhanced Mammography

The MEDRAD Stellant FLEX helps you meet your financial, clinical, and organizational goals, so that you can continue to deliver quality patient care while maintaining healthy business operations.

Stellant FLEX Injection System

- Compatible with GE HealthCare SenoBright HD Contrast Enhanced Spectral Mammography
- User-driven design and easy-to-use interface of MEDRAD Stellant FLEX guides efficient Mammography workflow
- Staff experience with FLEX Contrast Injection System drives satisfaction and standardization

Stellant FLEX Enhanced Benefits

- Accurate contrast dose administration for better visualization of abnormalities in breast tissue
- Consistent delivery of contrast for enhancement of tumor tissue
- Simple installation to minimize operational disruption
- Small, intuitive and easy to use design to maximize operability

Certegra® Workstation

From study set-up and preparation to study administration and results management, the Certegra Workstation serves as a workflow-centralized technologist interface to help users enhance efficiencies and patient care.

MEDRAD Stellant FLEX Configuration

Pedestal-mount configuration includes:

- Dual injector head on pedestal with integral IV pole
- Syringe heat maintainer
- Certegra Workstation with USB drive
- DualFlow software
- Base control unit
- 22.8 m (75 ft) head extension cable
- 7.6 m (25 ft) base to display cable
- Power cord
- Product information package
- Operations manuals
- Installation, customer's operational training at time of installation, and one year full on-site warranty in Bayer service countries

More Choices for Operational Efficiency

Options for Contrast Delivery

- 150 mL syringe option is offered in addition to the 200 mL syringe size for protocols that require higher volumes of contrast
- Syringe options offer you the flexibility to optimize contrast media use, reduce environmental impact, and cut the cost of waste disposal, all of which reduce operational costs
- **Colored beacon technology**
A clear indication of the presence of fluid in the syringe with an orange colored identifier
- **MEDRAD FluidDots embedded on the syringe**
Offers additional assurance of fluid in the syringe prior to injection
- **Ultra-clear barrel design**
Further enhances the visualization of fluid to help prevent user error
- **2D barcodes**
System uses barcodes to determine: syringe size, expiration date, if the syringe has already been used

SensorySuite for Mammography

An interactive experience centered around your patient.

By focusing on your patients, we've re-invented the experience...and addressed many of the reasons why women avoid mammograms.

Designed to stimulate a woman's senses, SensorySuite can distract her from the perceived discomfort, pain, and anxiety of a mammogram.

SensorySuite lets your patient choose the environmental ambience she prefers for her mammogram:

- Seaside
- Garden
- Waterfall
- Mountain
- Zen Garden
- Natural Rhythms
- Marine
- Mountainside
- Spring Renewal

Designed to help you stand apart, SensorySuite helps enable you to:

- Improve the mammography experience of every woman
- Increase patient compliance with screening mammography
- Promote the high level of patient care you provide
- Differentiate your healthcare facility from others in your area

Advertise and promote your SensorySuite solution to women and referring physicians in your area with our comprehensive marketing tool kit of promotional materials.

Take mammography to a whole new place!

ABUS System Consumables

ABUS Membranes

The ABUS disposable scan membrane provides comfort to the patient during the 3D image acquisition. The flexible, polyester, mesh fabric stabilizes the breast tissue and enables better image quality during the scan. The membrane is single-use only which eliminates the risk of cross-contamination and the need for sterilization.

ABUS Single-Use Stabilization Membrane for Invenia™ ABUS 2.0, Invenia™ ABUS, and sono•v™ ABUS Platinum systems

Catalog #E8340AB

Curved membrane dimensions:

229 mm (L) x 213 mm (W) x 19 mm (D)

POLYSONIC® Ultrasound Lotion

POLYSONIC® Ultrasound Lotion is an acoustic coupling lotion that is hypo allergenic and has a light pleasing scent.

Protex™ Ultrasound Disinfectant Wipes

Protex™ one-step cleaner disinfectant kills more than 30 pathogens including HIV, H1N1 and MRSA, while remaining safe for even the most sensitive surfaces. The pre-moistened wipes are easy and convenient to use.

Biopsy Solutions

Ultra DBI 3-in-1 Interventional Mammography Table

The Ultra DBI™ maximizes department space by incorporating upright and decubitus stereotactic breast biopsy, as well as mammography into one bariatric capable platform, increasing throughput and increasing continuity of care.

- Easy transition from chair to table provides an all-encompassing platform for varying patient population
- Accommodates both upright and decubitus positions for stereotactic breast biopsy, as well as mammography and breast ultrasound
- Can also be used as the IB contrast injection chair for CESM (Contrast Enhanced Spectral Mammography) or other interventional procedures
- Optional IV pole accessory for CESM exams
- Bariatric capable patient weight capacity of 500 lbs establishes continuity of care
- Reduce turnover time and increase throughput, even in small exam rooms, with interchangeable head and foot rests eliminating the need to reposition the table to accommodate each patient
- Optional battery for use when a plug-in outlet is not available

Mammography Phantom

Mammography ACR Phantom

- The phantom simulates the X-ray attenuation of a 4.2 cm slab of compressed human breast composed of 50% adipose tissue and 50% glandular tissue
- An exceptional tool to help identify artifacts due to grids, filters, film-processing (for film-screen systems), as well as those produced by digital mammography systems
- Includes a carrying case

E6322DJ

Cat#	Description	Warranty
E6322DJ	ACR Breast Phantom	H

Compatibility: Analog and digital mammography systems

Mammography Furniture

Senographe Pristina™ Accessories Storage Wall Stand

- Holds 8 paddles
- Trays for mag stand and bucky
- Two hooks – for both face shields
- Color coordinated to Senographe Pristina™ system
- Lightweight, aluminum construction for easy wall mounting
- Dimensions – 46.2 (L) x 21 (W) x 17.25 in (D)/1172.9 (L) x 533.4 (W) x 438.9 mm (D)
- Weight – 11.9 lbs

Senographe Pristina™ Accessories Storage Cabinet

- Slots available for all paddles
- Shelves for mag stands and bucky, or use top of the cabinet for additional storage
- Two hooks – for both face shields
- Color coordinated to Senographe Pristina system
- Sturdy steel base with lightweight aluminum cabinet, shelves and tracks
- Dimensions – 60.2 (L) x 25.3 (W) x 15.4 in (D)/1530.7 (L) x 643.6 (W) x 392.1 mm (D)
- Weight – 57 lb

Both cabinets are specifically designed to store the Senographe Pristina 3D accessories.

Uninterruptible Power Supplies

Uninterruptible Power Supplies (UPS)

- Helps provide reliable, clean, consistent power for Diagnostic Imaging and PACS systems
- Helps to eliminate power anomalies (noise, transients, over and undervoltage), which could damage the system's sensitive computer components
- Enables the DI system to complete scanning after the loss of supply power and allows for the saving of valuable data and orderly system shutdown
- GE HealthCare tests and approves the UPSs listed in this catalog for compatibility with GE HealthCare Diagnostic imaging systems. All solutions are On-Line Double Conversion UPS.
- Configurations are available to support multi-modalities or even complete departments

Cat#	Description	Warranty
Mammography UPS

Main Disconnect Panels

Main Disconnect Panels

- Main Disconnect Panels provide emergency shut down, undervoltage protection, overcurrent protection, OSHA lockout tag provisions, and serves as a local disconnect for the GE HealthCare Diagnostic Imaging System.
- Helps reduce installation time by providing a single-point power connection, eliminating the need to mount and wire a number of individual components
- Standardized design and testing helps ensure high product quality and system reliability
- UL and cUL listed for compliance with National Electric Code
- Surface or semi-flush mounting
- Please consult your GE HealthCare Field Engineer to determine if this is the appropriate product for your needs before purchasing
