CRITIKON
SENSA-CUF
Blood Pressure Cuffs

The CRITIKON™ SENSA-CUF™ is a highly versatile solution for a wide range of extended-care settings. Made using strong, breathable, easy-to-clean material, the SENSA-CUF is designed to maximize patient comfort in low-acuity areas in a hospital where risk of contamination are diminished, and durable enough for multi-patient use.

A trusted choice for clinical excellence
- Cuffs are held to the same quality standard as all GE patient monitors, with repeated inflations to ensure accurate readings
- Large bold print helps you quickly choose the right cuff, enabling a more accurate measurement

Constructed for patient safety and durability
- Soft, breathable, easy-to-clean material is not made with PVC, making them safer for the environment, or natural rubber latex, making them safer for your patients
- DINACLICK™ connector meets international standards and prevents misconnections to luer fittings

Designed to improve workflow
- Easy-to-use, fast DINACLICK connector enables nurses to link the cuff to the monitor faster than other dual-tube connectors
- Cuffs compliant with AAMI and AHA NIBP cuff sizing standards for prompt, correct sizing
- A full range of adapters and connectors are compatible with automated monitors and a variety of manual devices, including wall manometers, enabling a universal connection system throughout the facility

Assortment packs available
- For low-volume cuff utilizers, several types of assortment packs are available for easier ordering and more optimal inventory management
