

Permitted Cleaning Agents for GE Healthcare Clinical Accessories

Used with Patient Monitoring and Anesthesia and Respiratory equipment

As preferred cleaning practices change and new cleaning products become available, GE Healthcare continues to test the compatibility of cleaning agents with GE Healthcare Clinical accessories. The tables below provide an overview of the various cleaning agents we have tested and the determination of those tests for GE Healthcare clinical accessories.

The permitted agents are also available on <u>GE Healthcare cleaning web site.</u>

For cleaning procedures, please refer to your hospital procedures. You can find additional recommendations in the Instruction for Use (IFU), available on the <u>customer site.</u>
