#### **Sepsis and COVID-19: Perspectives from a Sepsis Coordinator**

Coronavirus disease 2019 (COVID-19) has brought difficulties and disruptions to all corners of the world. As a sepsis coordinator, I can attest that the scientific and healthcare community in the United States has been particularly turned upside down by the novel virus, as our daily tasks and responsibilities have been shifted to respond to the threats accompanied by this virus.

## A Data Revolution is Happening in Healthcare

PRECISELY is an initiative of GE Healthcare and Roche that explores how we can activate data and liberate clinicians to help make patient care more precise, via artificial intelligence, machine learning and other technologies.
