

## ***Invasive Cardiology Security Website***

### ***Interventional - Invasive Cardiology***

**Product Group:** Interventional Invasive Products  
**Products:** Mac-Lab IT/XT/XTi, CardioLab IT/XT/XTi,  
SpecialsLab and ComboLab IT/XT/XTi  
Recording Systems  
**Versions:** 6.8.1, 6.8, 6.5.6, 6.5.4, 6.5.3  
**Subject:** Security Information  
**Date:** 10-October-2017

#### **Summary**

The following information is provided to GE Healthcare Technologies customers in regards to known technical security vulnerabilities associated with Mac-Lab® Hemodynamic, CardioLab® Electrophysiology, SpecialsLab and ComboLab IT Recording Systems for Cath Lab, EP Lab and other interventional labs as well as the Centricity® Cardiology Data Management Systems.

#### **Security Patch Base Configuration**

The security patch base configuration of the Mac-Lab IT/XT/XTi and CardioLab IT/XT/XTi product at release is listed within the MLCL Base Configuration under the Hemodynamic, Electrophysiology and Cardiovascular Information Technologies section of the [http://www3.gehealthcare.com/en/Support/Invasive\\_Cardiology\\_Product\\_Security](http://www3.gehealthcare.com/en/Support/Invasive_Cardiology_Product_Security) website.

#### **Process**

The following actions are taken whenever Microsoft/OEMs releases new security patches:

- The Invasive Cardiology Engineering Team performs a security analysis process for supported Mac-Lab IT/XT/XTi, CardioLab IT/XT/XTi, GE Client Review and INW Server hardware/software.
- If a vulnerability meets Mac-Lab IT/XT/XTi and CardioLab IT/XT/XTi validation criteria, the vulnerability is communicated through the GEHC Product Security Database and Invasive Cardiology Security Website within Three weeks of the patch release.
- Upon validation of the Mac-Lab IT/XT/XTi and CardioLab IT/XT/XTi vulnerability, the GEHC Product Security Database and Invasive Cardiology Security Website and affected Mac-Lab IT/XT/XTi and CardioLab IT/XT/XTi Security Patch Installation Instructions are updated.

## GE Healthcare

The Mac-Lab IT/XT/XTi and CardioLab IT/XT/XTi vulnerability validation criteria are as follows: Any vulnerability that allows malware to alter or deny Mac-Lab IT/XT/XTi and CardioLab IT/XT/XTi functionality and/or infect and propagate through normal system use.

Customers are responsible to stay informed with Microsoft vulnerability notifications and to visit the Invasive Cardiology websites to understand the Mac-Lab IT/XT/XTi and CardioLab IT/XT/XTi impact. Once a security patch is validated, customers are responsible for the installation of security patches. All Mac-Lab IT/XT/XTi and CardioLab IT/XT/XTi Security Patch Installation Instructions are available on the Invasive Cardiology Security Website below the Validated Patches table.

Vulnerabilities exposed after the Mac-Lab IT/XT/XTi and CardioLab IT/XT/XTi product release which do not meet the criteria to be validated are not listed within the GEHC Product Security Database and Invasive Cardiology Security Website. These vulnerabilities are deemed to be non-critical and/or outside normal clinical workflow of the Mac-Lab IT/XT/XTi, CardioLab IT/XT/XTi and Centricity INW systems and will not be validated. Unlisted patches should not be installed on the products in order to eliminate malfunction and breakdown risks.

## Revision History

Revision	Date	Comments
1.0	7-July-2017	Initial Release
2.0	10-October-2017	Includes additional security patches that were qualified for SW versions 6.5.6, 6.8 and 6.8.1 in the document and created new sections labeled '...Security Updates 2'

## Installation of the Security Patches on MLCL systems

### Requirements

- Updates may be applied at any time other than while the Mac-Lab IT/XT/XTi, CardioLab IT/XT/XTi or SpecialsLab application is open.
- Updates must be re-applied if the system is re-imaged.
- Updates apply to both networked and standalone systems.
- Best practice is to update all applicable MLCL systems at the site.
- If any Mac-Lab IT/CardioLab IT system has a DMS, CCW, or Carddas client, use the Mac-Lab IT/XT/XTi, CardioLab IT/XT/XTi or SpecialsLab instructions.

## How to Log On to Acquisition and Review Systems

When starting up an Mac-Lab, CardioLab or SpecialsLab Acquisition or Review system, an auto-logon sequence starts and automatically logs on to the operating system. To install a security patch, the user must be logged on as **mlctechuser**.

**NOTE:** Password information is contained within the Security Guide Manual. Otherwise, contact the system administrator or GE Technical Support for current password information.

1. Power on the Acquisition system.
2. The system boots up to the ***Custom Shell*** screen.
3. Press **Ctrl + Action + Del**.
4. Click **Logoff**. On Windows XP, click **Logoff** again.
5. Click **OK**.
6. Immediately hold down the **Shift** key until the login window is displayed.
7. Log on to the operating system locally as **mlctechuser**.
8. Log on to the ***Custom Shell*** locally as **mlctechuser**.

## How to Log On to the Centricity Cardiology INW Server

Password information is contained within the Security Guide Manual. Otherwise, contact the system administrator or GE Technical Support for current password information. Logon to the INW Server as **administrator**.

## How to Log On to MLCL Software Only Systems

Since Software Only systems are supported by the customer, the system needs to be logged into with an **administrator** account.

## How to Install Printer Firmware

The system which will apply the firmware to the printer should be provided by the customer.

**NOTE:** Mac-Lab CardioLab system should not be used to download and/or apply the Printer Firmware.

- Follow the download link in the table
- Select the appropriate printer
- Select English and the applicable MLCL operating system
- Select English and under the Firmware category select the applicable Firmware Update Utility and Click Download
- Launch the firmware installer and follow the instructions to complete the firmware update

## Patch Links

The patches displayed below are qualified on an independent basis and can be installed on a one-by-one basis, although it is recommended that all qualified patches are installed. There are dependencies within the qualified patch list. In the table below, it is recommended the patches are installed in order from top to bottom to ensure all pre-requisites are met for all patches. On occasion the patch dependencies require system reboots which are identified in the table below.

**NOTE:** Due to site configurations, system patch set, qualified patches which have been installed previously or patch dependencies, some patches could fail to install due to the functionality is already installed. The Microsoft patch installer will alert you to this issue. If this occurs, please continue with the next patch installation.

**Alternate Patch locations:** In early 2016 Microsoft announced that some patches would no longer be available on the Microsoft Download Center <https://blogs.technet.microsoft.com/msrc/2016/04/29/changes-to-security-update-links/>. Therefore, some of the links provided below may not work. Microsoft may move/remove these links at any time without notice. However, if the links do not work, there are two alternate methods for downloading patches. The first is the Microsoft Catalog <http://catalog.update.microsoft.com> . Most fixes not on Microsoft Download Center will be available from the Microsoft Catalog. If a fix is not available from the Microsoft Catalog, Microsoft has monthly ISO files of the security updates available at <https://support.microsoft.com/en-us/kb/913086> To use the ISOs, determine the month of the patch, download the applicable ISO and extract the patch. If after exhausting all three methods, you are still unable to obtain a patch, please contact GE Technical Support for further assistance.

**Recommendation:** Use Internet Explorer (IE) for Catalog download. If you are using the cart feature to download patches, to see the cart it requires opening another tab or new window.

## MLCL v6.8.1 Security Updates 1

The following patches bring the MLCL system to a more recent patch level and address several security vulnerabilities. The following guidelines apply:

- 1) The above patches are required patches for 6.8.1 and must be applied first.
- 2) It is expected that some patches listed will already be on the system.
- 3) Patches must be applied in order except where indicated.
- 4) Reboots are only required where indicated. If a Patch requests a reboot at another point, the system can be rebooted but it is not required.
- 5) Patches will not install if the software component to be patched is not present (such as an IE8 patch on a system that does not have IE8 installed).

Reboot after installing security updates	<b>Reboot Required</b>	<b>Reboot Required</b>	<b>Reboot Required</b>	<b>Reboot Required</b>

## MLCL v6.8.1 Security Updates 2

The following patches bring the MLCL system to a more recent patch level and address several security vulnerabilities. The following guidelines apply:

- 1) The above patches are required patches for 6.8.1 and must be applied first.
- 2) It is expected that some patches listed will already be on the system.
- 3) Patches must be applied in order except where indicated.
- 4) Reboots are only required where indicated. If a Patch requests a reboot at another point, the system can be rebooted but it is not required.
- 5) Patches will not install if the software component to be patched is not present (such as an IE8 patch on a system that does not have IE8 installed).

## MLCL v6.8 Security Updates 1

The following patches bring the MLCL system to a more recent patch level and address several security vulnerabilities. The following guidelines apply:

- 1) The above patches are required patches for 6.8 and must be applied first.
- 2) It is expected that some patches listed will already be on the system.
- 3) Patches must be applied in order except where indicated.
- 4) Reboots are only required where indicated. If a Patch requests a reboot at another point, the system can be rebooted but it is not required.
- 5) Patches will not install if the software component to be patched is not present (such as an IE8 patch on a system that does not have IE8 installed).

Reboot after installing security updates	<b><u>Reboot Required</u></b>	<b><u>Reboot Required</u></b>	<b><u>Reboot Required</u></b>	<b><u>Reboot Required</u></b>

## MLCL v6.8 Security Updates 2

The following patches bring the MLCL system to a more recent patch level and address several security vulnerabilities. The following guidelines apply:

- 1) The above patches are required patches for 6.8 and must be applied first.
- 2) It is expected that some patches listed will already be on the system.
- 3) Patches must be applied in order except where indicated.
- 4) Reboots are only required where indicated. If a Patch requests a reboot at another point, the system can be rebooted but it is not required.
- 5) Patches will not install if the software component to be patched is not present (such as an IE8 patch on a system that does not have IE8 installed).

## MLCL v6.5.6 Security Updates 1

The following patches bring the MLCL system to a more recent patch level and address several security vulnerabilities. The following guidelines apply:

- 1) The above patches are required patches for 6.5.6 and must be applied first.
- 2) It is expected that some patches listed will already be on the system.
- 3) Patches must be applied in order except where indicated.
- 4) Reboots are only required where indicated. If a Patch requests a reboot at another point, the system can be rebooted but it is not required.
- 5) Patches will not install if the software component to be patched is not present (such as an IE8 patch on a system that does not have IE8 installed).

## MLCL v6.5.4 Security Updates

The following patches bring the MLCL system to a more recent patch level and address several security vulnerabilities. The following guidelines apply:

## GE Healthcare

- 1) The above patches are required patches for 6.5.4 and must be applied first.
- 2) It is expected that some patches listed will already be on the system.
- 3) Patches must be applied in order except where indicated.
- 4) Reboots are only required where indicated. If a Patch requests a reboot at another point, the system can be rebooted but it is not required.
- 5) Patches will not install if the software component to be patched is not present (such as an IE8 patch on a system that does not have IE8 installed).

## MLCL v6.5.3 Security Updates

The following patches bring the MLCL system to a more recent patch level and address several security vulnerabilities. The following guidelines apply:

- 1) The above patches are required patches for 6.5.3 and must be applied first.
- 2) It is expected that some patches listed will already be on the system.
- 3) Patches must be applied in order except where indicated.
- 4) Reboots are only required where indicated. If a Patch requests a reboot at another point, the system can be rebooted but it is not required.
- 5) Patches will not install if the software component to be patched is not present (such as an IE8 patch on a system that does not have IE8 installed).

\* Microsoft XP SP3 Extended Support Patch – Only available to U.S. PSC contract or warranty customers. Contact GE Field Engineer for availability details.

## Definition

Centricity Cardiology INW Server	A powerful server responsible to manage communication between critical cath and EP Lab acute care recording devices. It also functions as a centralized storage server for the clinical waveforms.
Mac-Lab, CardioLab, SpecialsLab and ComboLab	Hemodynamic and Electrophysiology Recording Systems and Workstations
Current Vulnerability	A critical Microsoft Operating System flaw revealed by Microsoft that exists on the product. The flaw has a corrective patch distributed by Microsoft that Engineering is in the process of validating.
Validated Security Patches	A critical Microsoft security patch that Engineering has validated on the product. The security patch can be installed following the provided directions.

## Contact Information

If you have any additional questions, please contact our Technical Support Department.

### Notes:

#### **Support for version 6.5.6/6.8/6.8.1**

As of June 2014, all Mac-Lab/CardioLab/ComboLab/INW Server systems at version 6.5.6/6.8/6.8.1 will no longer have new security patches qualified.

As of July 2017, the patches for 6.5.6, 6.8, and 6.8.1 have been updated to support installation of recent patches to Windows XP, Windows Vista, and Windows Server 2003. For the 6.8 Software-Only System (Vista), this requires installation of Windows Vista SP2. This service pack has been added to the list of security patches. Additional security patches that were previously qualified on Windows Server 2003, Windows XP, or Windows Vista have also been qualified for installation on 6.5.6, 6.8, and 6.8.1.

#### **Microsoft Office Security Patch Support**

Currently qualified Microsoft Office 2007 SP2 security patches are eligible for MLCL 6.5.6/6.8/6.8.1 Software Only Systems. Office Language Pack 2007 SP3 (<http://support.microsoft.com/kb/2526086>) is a pre-requisite for the installation of Microsoft Office 2007 SP3 security patches on MLCL v6.5.6/6.8/6.8.1 Software Only Systems.

#### **Support for version 6.5.3/6.5.4**

As of October 2010, all Mac-Lab/CardioLab/ComboLab/INW Server systems at version 6.5.3/6.5.4 will no longer have new security patches qualified.

As of July 2017, the patches for 6.5.3 and 6.5.4 have been updated to support installation of recent patches to Windows XP and Windows Server 2003. For the 6.5.3 INW Server, this requires installation of Windows Server 2003 SP2. For the Acquisition, GE Review, or Software Only System (XP), this requires installation of Windows XP SP3. These service packs have been added to the list of security patches. Additional security patches that were previously qualified on either Windows Server 2003 or Windows XP have also been qualified for installation on 6.5.3 and 6.5.4.

#### **Support for Windows NT**

Microsoft no longer provides security patches or support for the Windows NT Operating System. There will be no new security patches for the Mac-Lab/CardioLab 7000/4000/2000 5.x systems.
