

GE Healthcare

Digital Expert Access

Virtual collaboration and real-time remote console access and control

Connect your teams and leverage your own expertise

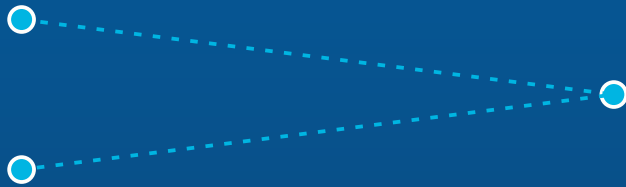

Hospital departments have continuous, dynamic, and evolving needs around ensuring their staff has the expertise in order to confidently perform procedures, , especially those that are less common or highly complex.

Digital Expert Access by GE Healthcare is a tele-solution that allows hospital staff to collaborate real-time with colleagues virtually. Via a mobile tablet within the exam room, Digital Expert Access provides live, face-to-face collaboration and support between your departments and across your entire network.

Leverage your expertise, optimize your resources

Digital Expert Access can provide better use of your staff resources through virtual collaboration. Connect scan rooms across multiple locations directly to your chief technologist or radiologist and leverage their expertise to provide real-time access and support.

Increase your staff's confidence

Digital Expert Access provides virtual support for your staff when they need it, especially for difficult and less common exams. Share best practices and knowledge through peer-to-peer collaboration across your network.

Standardize care across your enterprise

Digital Expert Access gives you the ability to drive better clinical outcomes and best-practices from site to site providing you with a greater level of consistency of exams across your network.

User Features

Video and audio collaboration

On demand and scheduled telecommunication, remote viewing, and remote operation guidance capability for the onsite console user

Screen share and live annotation

User dashboard view for the master user where they can see their incoming or scheduled calls from onsite console users

Remote console access and control

User management tool allows site administrator to manage onsite console users and master users within their network

Connect up to three devices for each Digital Expert Access tablet

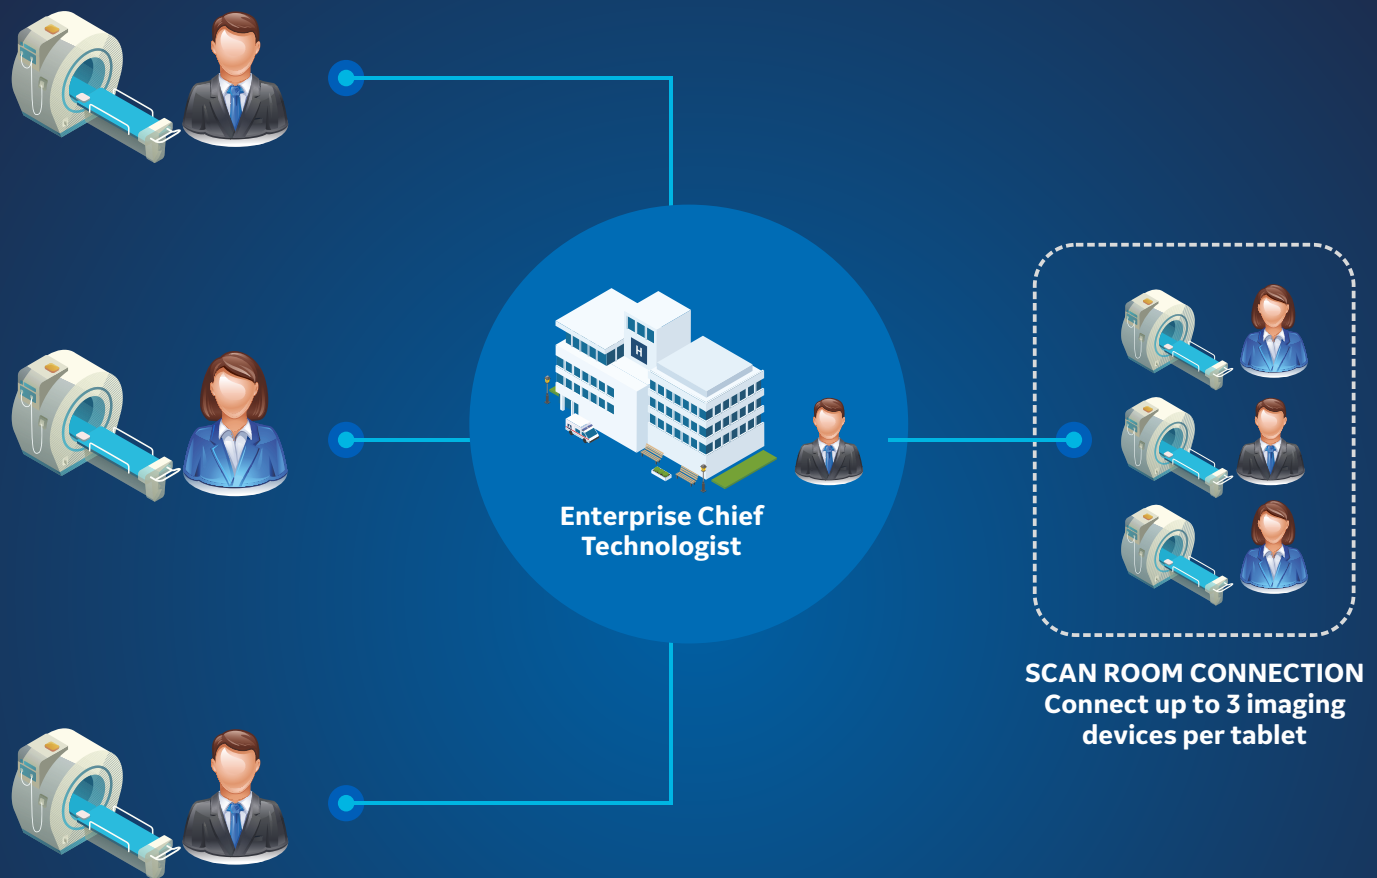

Connect up to five master users within an account or network

Digital Expert Access Capability

Digital Expert Access provides live and virtual support and collaboration right next to your equipment, in your own clinical environment. Imagine having support from your chief technologist or radiologist right there next to you, virtually, in real time, and accessible next to the console and in your scan room.
