THE PRECISELY CONNECTION

Conversations at the frontier of Clinical Decisioning and The Virtualization of Care

FEATURED ARTICLE

Accurate Tests for SARS-CoV-2 Reveal More Than Positive or Negative

Although different types of tests have different utility and application for particular settings—from population screening of asymptomatic individuals, to diagnosis of patients presenting for acute care—testing that is not accurate, accessible, or timely can confound patient care and impede efforts to manage the COVID-19 pandemic.

PARTNERSHIP WITH A PURPOSE

Quantifying Clinical Impact of PoC SARS CoV-2 Testing

"You have these patients coming in, they have symptoms, and you don't know for sure if they have SARS CoV-2, and understanding that is really critical to what you do next," commented Joanna Sickler, MPH, Senior Director, Medical Affairs, Roche Molecular Diagnostics. "
