

MyGEHealthcare Experience

Manage Your Service and Support in One Place — Anytime, Anywhere

*How is your healthcare equipment fleet doing?
What's the status of assets being serviced?
Is your team trained in the best use of your equipment?
Are you prepared for the latest cybersecurity threats?*

You face many important questions in managing a healthcare equipment fleet.

Now you can get the answers you need, all in one place, with MyGEHealthcare. It's the hassle-free way to manage your digital relationship with GE Healthcare — anytime, anywhere. Whether you're at your desk or on the go, MyGEHealthcare brings you comprehensive support and total equipment fleet visibility.

It's all available with a single login and one seamless experience:

- Access equipment utilization and performance analytics to guide workflow and equipment purchase decisions
- Create and track service requests via real-time push notifications for every step in the service process
- View equipment and parts ordered
- Get access to educational and training tools such as technical training, manuals etc.
- Safeguard your fleet with the latest cybersecurity updates
- Connect with your GE team through one central point of contact

Connect with ease

Only one registration needed
Quickly access My GE Team contacts within the system

Operational efficiency

Achieve comprehensive service model optimization
Optimize assets and enable compliance
Increase staff productivity and optimize patient flow
Provide visibility on activities and performance across different sites

Everything you need, in one place

The MyGEHealthcare experience begins with your customizable **dashboard**, where you can get all your questions answered at a glance. It's easy to personalize your view and set all your preferences to deliver the right information for your operation.

Beyond your dashboard, you can tap into essential insights including:

Equipment

Access information about equipment status, request service, track service requests from creation to completion, run reports in utilization and exam performance.

Orders

Request or review current and past GE Healthcare equipment, parts, and service purchases.

Education

Access GE Healthcare training resources — from the Healthcare Learning System, Digital Expert, clinical and technical training, manuals, and cleaning information.

Security

Access the Product Security Portal for critical cybersecurity updates and advisories that impact your equipment.

Account

View and change the details of your account, including user access and registered equipment.

Notifications

Customize your preferences, review the latest updates, and see alerts related to your equipment and orders.

Support

Need help? Connect with all the support you need, when you need it, with just a click two.

A unified experience with seamless, real-time data across all of your devices.

The desktop experience of MyGEHealthcare, brings you comprehensive, full life-cycle support of any device in a unified support experience, now delivered through personalized dashboards and reports.

Get the MyGEHealthcare mobile app for simple and fast self-service. Available for Apple® and Android™, the app lets you create service requests and track service through completion, get real-time push notifications for every step in the service process and connect with your GE team through one central point of contact.
