

CASE STUDY

Increasing Physician Adoption of Structured Reporting Across Service Lines

150 physicians adopt structured reporting across 6 Methodist Healthcare hospitals in San Antonio area

Challenges

- Inconsistent data in physician reports
- Variable accreditation & registry submission processes
- Staff burdened with manual charge capture processes and manual data entry

Solution

Centricity™ Cardio Enterprise with Physician Reporting

“

Clarity and succinctness matter, and the Centricity Cardio Workflow report template draws your attention to what's important in the report.

It's one of the best templates I've seen out there.

”

***Dr. Randal White, Cardiologist,
Methodist San Antonio***

Outcomes

90%+ Structured Reporting adoption across Echo, Nuclear Stress & Non-invasive IPV

Reduced manual data entry

Standardized structured data capture and reporting for accrediting bodies, AUC and registries (ex. NCDR)

Time to charge reduced from 5 mins per case to 1-click with Billing Optimization
