Centricity™ Perinatal

Centricity Perinatal 6.97 SP1

Centricity Perinatal Connect Module 1.4 SP1

Statement on Price Transparency for Modular EHR Certification

Revision: November, 2017

GE Healthcare has certified Centricity Perinatal 6.96 for the Meaningful Use 2014 edition. The following is a statement on price transparency for our modular EHR certification.

- There may be one-time cost for installation and implementation of certified capabilities for all measures.
- There may be annual support and/or maintenance costs associated with certified capabilities for all measures.
- There may be one-time interface configuration cost associated with all measures.
- There may be a one-time configuration cost for reporting on all measures
- Customers may choose to incur additional one-time costs to customize clinical content.
- There are no known limitations in using our software for the modules we are certified for

2014 Certification Status (MU Stage 2)

GE Healthcare agrees to notify InfoGard of all future changes to the price transparency language for this certified product-version. GE Healthcare understands and agrees that the ONC HIT Certification Program Final Rule statement gives InfoGard, as an ONC-ACB, the sole responsibility for ensuring compliance and determining appropriate consequences if EMR technology developers fail to disclose accurate price transparency information. GE Healthcare understands and agrees that we will provide to InfoGard copies of or give access to all websites, marketing materials, communication statements, and other assertions made by our organization regarding the ONC certification status of our product in a reasonable time to ensure the price transparency information is being accurately disclosed.

Disclaimer

"This EHR Module is 2014 Edition compliant and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services or guarantee the receipt of incentive payments."

Centricity Perinatal does not replace clinical observation and evaluation of the patient at regular intervals, by a qualified care provider, who will make diagnoses and decide on treatments or interventions. Features of the Centricity Perinatal system are intended to support clinical decision making and should be used in combination with other clinical inputs, such as real time patient observation and information contained within other systems or recording tools. Not intended to be used as a primary monitoring device.
