U.S. Accessories & Supplies

How to Order

Shop online:
gehealthcare.com/accessories

Available 24/7, GE Healthcare Service Shop makes ordering supplies online fast and easy.

• Search real-time inventory of compatible, OEM products

• Take advantage of Auto Reorder for parts you buy regularly

• Batch order multiple items at once with Quick Order

• Get instant order and tracking confirmations

• Pay by PO or credit card or integrate your purchasing system

Visit GE Healthcare Service Shop to register.

1. Visit GE Healthcare Service Shop, navigating to the registration link in the upper left-hand corner of the page.

2. Give us your account details. Pro tip: Provide your customer account number for expedited registration.

3. A welcome message will come to you through the email you provide. Start shopping!

Table of Contents

TD 200 portfolio of products to clean and disinfect TEE probes

- **Fastest automated cycle time in the US:** 10 minute automated disinfector time for TEE probes; with total cycle time improved from 17 minutes to 10 minutes

- **Fastest High Level Disinfection of TEE Probes cleared by the FDA:** 3 minutes; high level disinfection time improved from 5 minutes to 3 minutes

- Single Use TD-12 AquaCide disinfectant – no longer an Aldehyde based solution – therefore a neutralization station is not needed

TD 200 Automated TEE Probe Cleaner Disinfector

TD 100 portfolio of products to disinfect and protect TEE probes

TD 100 TEE Probe High Level Disinfector

The TD 100® Automated TEE Probe Disinfector is designed to provide high-level disinfection of transesophageal (TEE) echocardiogram ultrasound probes.

- Simple to use: quick 5 min disinfection cycle, in addition to 5 automated rinse cycles for total of 17 min
- Closed system with advanced vapor management: captures and neutralizes disinfectant fumes
- The automatic waste disposal feature helps to eliminate the potential for over-soaking the probe
- Repeatable, verified disinfection cycle: printed record for proof of successful cycle
- Tested and approved by the major TEE manufacturers

TEEClean portfolio of product to clean and disinfect TEE probes

TEEClean Automated TEE Probe Cleaner Disinfector

TEEClean® is an automated solution that both cleans and high-level disinfects TEE probes. Automated reporting – including electronic record data logging and verification reporting – facilitates regulatory compliance/audits.

- Eliminates the manual cleaning process and need for a sink
- Reduces the potential for probe damage due to oversoaking
- Minimizes probe handling with integrated electrical leak testing
- Extra step of MRC testing NOT required – and single use disinfectant means no exposure to an open disinfectant that must be changed out regularly

E8365FM
TEEClean Automated TEE Probe both cleans and high-level disinfects. It eliminates the manual cleaning process and need for a sink.

trophon2® – Automated High Level Disinfector

trophon®2 is an environmentally friendly, efficient system for the complete High-Level Disinfection (HLD) of ultrasound transducers. It features AcuTrace™ (RFID) technology, which enhances digital record keeping to deliver a cost-effective, easy and reliable workflow for your HLD process.

trophon Sonex-HL™

Catalog #E8350MC
The cartridge contains a proprietary solution of 35% hydrogen peroxide. 80 mL each. Product cannot ship air.

trophon Chemical Indicators

Catalog #E8350MB
Chemical Indicators confirm that there is a Minimum Effective Concentration of disinfectant.

Traceability Accessories

trophon AcuTrace Operator Card

Catalog #E8350MJ
Incorporates AcuTrace™ technology to digitally capture operator interaction details, stored directly on your trophon2.

E8350MJ

trophon AcuTrace Medical Instrument Tag

Catalog #E8350MK
Incorporates AcuTrace™ technology to digitally capture ultrasound probe details, stored directly on your trophon2.

E8350MK

trophon AcuTrace PLUS License

Catalog #E8350ML
AcuTrace™ PLUS allows you to create a customized solution for streamlined workflows.

E8350ML

Cleaning and Drying Wipes

trophon Drying Wipes

Catalog #E8350MR
Are used to dry probes before and after HLD. The Drying Wipes are highly absorbent to leave surfaces completely dry.

E8350MR

trophon Wipes Wall Mount

Catalog #E8350MS
For wall mounting trophon Cleaning or Drying Wipes.

trophon Cleaning Wipes

Catalog #E8350MQ
The Wipes provide fast and efficient low level disinfection (LLD) of ultrasound equipment.

E8350MR

Probe Storage Solutions

Clean Ultrasound Probe Covers

Catalog #E8350TA
Protect endocavitary and surface ultrasound probes from the risk of recontamination.

trophon Products and Accessories

Endocavity/General Purpose Probe Storage

CleanShield® Probe Storage Cabinet

Designed to effectively and securely store disinfected endocavity probes and semi-critical devices.

- Specifically designed for trans vaginal, trans rectal, and general purpose ultrasound probes
- Stores up to 6 endocavity probes
- Probes stored in vertical position to minimize stress on connection cable, strain relief and electrical pack
- Made of thermally-fused polypropylene – easy to clean and will not rust
- Unique two-stage filtration removes potential airborne contaminates from entering the cabinet
- Dimensions – 88 in (H) x 26 in (W) x 10 in (D)
- Weight – 115 lbs.

CleanShield® Ultrasound Storage Cabinet - HEPA Filter
- Recommended filter replacement interval is once every 2 years, or when indicator light comes on
- 1 filter/box

CleanShield® Ultrasound Storage Cabinet, PreFilter pack
- Recommended filter replacement interval is once every 3 months
- 12 filters/box

ABUS System Consumables

ABUS Membranes

The ABUS disposable scan membrane provides comfort to the patient during the 3D image acquisition. The flexible, polyester, mesh fabric stabilizes the breast tissue and enables better image quality during the scan. The membrane is single-use-only which eliminates the risk of cross-contamination and the need for sterilization.

ABUS Single-Use Stabilization Membrane for Invenia™ ABUS 2.0, Invenia™ ABUS and somo•v™ ABUS Platinum

Catalog #E8340AB
Curved membrane dimensions:
229 mm (L) x 213 mm (W) x 19 mm (D)

Polysonic® Ultrasound Lotion and Protex™ Ultrasound Disinfectant Wipes

See details on page U/S 18

E8340AB

GE Healthcare offers an array of consumable supplies for the ABUS (Automated Breast Ultrasound) portfolio of systems including scan membranes, Polysonic® ultrasound lotions, and Protex™ disinfectants.

SensorySuite for ABUS

An all encompassing interactive experience centered around your patient.

Sight & Sound
A flat-screen monitor will display soothing video and relaxing ambient sounds of your selected environment.

Sight
Decorative wall panels in a choice of three ambiances and two sizes help set the mood for the selected ambiance.

Sight
A flat-screen monitor on the wall will display a slide show of photos of your selected ambiance.

Scent
A scent diffuser gently infuses the air with SensorySuite's light calming fragrance.

By focusing on your patients, we've re-invented the experience... and addressed many of the reasons why women avoid breast imaging.

Designed to stimulate a woman's senses, SensorySuite can distract her from the perceived discomfort, pain, and anxiety of a breast exam.

SensorySuite lets your patient choose the environmental ambiance she prefers for her breast imaging:

• Seaside

• Garden

• Waterfall

• Mountain

Designed to help you stand apart, SensorySuite helps enable you to:

• Improve the breast imaging experience of every woman

• Increase patient compliance with screening breast imaging

• Promote the high level of patient care you provide

• Differentiate your healthcare facility from others in your area

Advertise and promote your SensorySuite solution to women and referring physicians in your area with our comprehensive marketing tool kit of promotional materials.

Take breast imaging to a whole new place!

Compatibility: Visit gehealthcare.com/ultrasound for detailed information.			

Ultrasound Gels

Parker Labs Aquasonic® 100 Gel

- Original gel for diagnostic and therapeutic applications
- Tested and approved for use with GE transducers
- Blue colored aqueous gel formula is non-staining, non-sensitizing, and non-irritating
- Hypoallergenic, bacteriostatic
- No salt or formaldehyde; not a spermicide
- 5 liter jug with dispenser, 250 ml bottles, or 20 g sterile overwrapped foil pouches

E8365BA   E8365AF   E8365BJ

Cat#	Description	Packaging	Warranty
E8365BA	Aquasonic 100 Gel (250 ml bottles)	12/case	H
E8365AF	Aquasonic 100 Gel (5 L jug – includes dispenser)	1/case	H
E8365BJ	Aquasonic 100 Gel (20 g pouches – single-use)	48/box	H

Parker Labs Aquasonic Clear Gel

- Same formula as original Aquasonic 100 Gel, but without the perfume or color
- Clear, non-scented aqueous, water-soluble gel formula is non-staining, non-sensitizing and non-irritating
- Hypoallergenic, bacteriostatic
- Offered in 250 ml bottles or 5 liter jug with dispenser

E8365CB   E8365CA

Cat#	Description	Packaging	Warranty
E8365CA	Aquasonic Clear Gel (250 ml bottles)	12/case	H
E8365CB	Aquasonic Clear Gel (5 L jug – includes dispenser)	1/case	H

Parker Labs SCAN® Gel

- Dual viscosity formula allows SCAN gel to be applied as a gel and scan as a fluid
- Less viscous than Aquasonic 100 for ultrasound procedures where a less viscous gel is desired
- Green colored gel is completely water-soluble, will not stain clothing, damage equipment, or irritate skin
- Hypoallergenic, bacteriostatic
- Offered in 250 ml bottles, 1 gallon jug with dispenser

E8365BC   E8365BD/BK

Cat#	Description	Packaging	Warranty
E8365BC	SCAN Ultrasound Gel (8 oz. bottles)	12/case	H
E8365BD	SCAN Ultrasound Gel (1 gal. jug)	1/case	H

Standoff Pads

Parker Labs Aquaflex® Standoff Pads

- Aqueous, flexible, disposable ultrasound standoff pad for use in difficult to visualize and near field areas
- Requires no gel, except in prolonged procedures
- Cushions sensitive areas for comfortable scanning
- Hypoallergenic, bacteriostatic
- Pads are disposable, which helps to prevent cross-contamination
- Each pad measures 2 × 9 cm
- Packaged 6 pads per box, sold per box

E8317C

Cat#	Description	Packaging	Warranty
E8317C	Aquaflex Standoff Pads – 2 × 9 cm	6/box	H

Endocavity Needle Guides

Protek Disposable Endocavity Needle Guide (Single Piece)

- 24 disposable procedure kits for ultrasound guided biopsy
- Disposable design of guide helps to reduce the risk associated with cross-contamination
- Directs instruments according to on-screen biopsy guidelines
- Needle Guides include (E8333JA):
  – 24 disposable biopsy needle guides
- Each starter kit includes (E8333JB):
  – 24 disposable biopsy needle guides
  – 24 latex transducer covers 1.4 × 7.9 in (3.5 × 20 cm) with gel and bands

E8333JB	E8C/E721/E8C-RS/IC5-9H/MTZ Biopsy Kit	24 procedures/box	K
Compatibility: E8C, E721, E8C-RS, IC5-9H and MTZ Transducers			

Protek Disposable Endocavity Needle Guide

- 25 disposable procedure kits for ultrasound guided biopsy

- Disposable design of guide reduces risks associated with cross-contamination

E8333DK

Cat#	Description	Packaging	Warranty
E8333DK	Sterile TV/TR 618E Endocavity Probe Long Needle Guide	25 procedures/box	K
Compatibility: TB/TR 618E transducers			

Protek Endocavity Needle Guides - Disposable

- Procedure kits for ultrasound guided biopsy

- Directs instruments according to on-screen biopsy guidelines

- Each Disposable Biopsy Needle Guide Starter Kit (E8387M)includes 24 sterile kits:

  – Each sterile kit includes: 1 disposable needle guide, 1 latex probe cover, 1 non-latex probe cover and elastic bands

- Disposable design of guide reduces risks associated with cross-contamination

- Cost-effective disposable kits helps maximize patient throughput

E8387M

Protek Endocavity Needle Guide - Reusable

- Stainless steel reusable biopsy guide allows for repeat usage after sterilization requirements have been met per hospital or clinic protocol

- Directs instruments according to on-screen biopsy guidelines

E8387MA

Cat#	Description	Packaging	Warranty
E8387M	BE9C Disposable Biopsy Needle Guide Starter Kit	24 procedures/box	H
E8387MA	BE9C Reusable Biopsy Needle Guide	1	H
Compatibility: BE9C transducers			

Ultrasound Furniture

Ultrasound Carrying Case for Venue* 40

- Dent-resistant, shatter-resistant, lightweight, air and watertight case
- Durable molded-in hasps that allow the addition of standard size padlocks
- Hinges with integrated feet that hold fast under impact, and create a flat surface for upright stability

E8365CS

Cat#	Description	Warranty
E8365CS	Venue 40 Carrying Case	H

GE Anti-Fatigue Mat

- Helps to reduce body stress and fatigue resulting from standing for long periods
- One of the most comfortable, buoyant, anti-fatigue floor mats on the market
- Durable construction; sealed to prevent moisture absorption and facilitate cleanup

Power Quality

Uninterruptible Power Supplies (UPS)

- Helps provide reliable, clean, consistent power for Diagnostic Imaging and PACS systems

- Helps to eliminate power anomalies (noise, transients, over and undervoltage), which could damage the system's sensitive computer components

- Enables the DI system to complete scanning after the loss of supply power and allows for the saving of valuable data and orderly system shutdown
