These equipment installation drawings indicate the placement and interconnection of the listed equipment components. These drawings are not construction or site preparation drawings. Customer remains ultimately responsible for preparing the site to accommodate the installation and operation of such equipment in compliance with GE Healthcare’s written specifications and all applicable federal, state, and/or local requirements.

*REQUIRED REFERENCE*

Precision MPI
Preinstallation Manual
2404435

A mandatory component of this drawing set is the GE Healthcare Preinstallation Manual. Failure to reference the preinstallation manual will result in incomplete documentation required for site design and preparation.

Preinstallation documents for GE Healthcare products can be accessed on the web at:

GE Equipment Delivery Requirements

Items 1 through 8 on the GE Healthcare Site Readiness Checklist are REQUIRED to facilitate equipment delivery to the installation site. Equipment will not be delivered if these requirements are not satisfied.

GE Healthcare Site Readiness Checklist

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Access to a working phone at the facility for emergency use, permitted construction drawings or PMI-specified installation requirements</td>
</tr>
<tr>
<td>2</td>
<td>Power for drills and other test equipment, including power for use in production areas</td>
</tr>
<tr>
<td>3</td>
<td>Capability for image analysis, 4. Restrooms</td>
</tr>
<tr>
<td>4</td>
<td>Provide for refuse removal and disposal (e.g. crates, cartons, packing)</td>
</tr>
<tr>
<td>5</td>
<td>Contact a radiation physicist or consultant to specify radiation containment requirements</td>
</tr>
</tbody>
</table>

GE Equipment Delivery Requirements

Any deviation from these drawings must be communicated in writing and reviewed by your local GE Healthcare Installation Project Manager prior to making changes.

Make arrangements for any rigging, special handling, or facility modifications that must be made to deliver the equipment to the installation site. If desired, your local GE Healthcare Installation Project Manager can supply a reference list of rigging contractors.

Provide for refuse removal and disposal (e.g. crates, cartons, packing)

Contact a radiation physicist or consultant to specify radiation containment requirements.
