Any deviation from these drawings must be communicated in writing to and reviewed by your local GE Healthcare Installation Project Manager prior to making changes.

Make arrangements for any rigging, special handling, or facility modifications that must be made to deliver the equipment to the installation site. If desired, your local GE Healthcare Installation Project Manager can supply a reference list of rigging contractors.

New construction requires the following:
1. Secure area for equipment
2. Power for drills and other test equipment
3. Capability for image analysis
4. Restrooms

Provide for refuse removal and disposal (e.g., crates, cartons, packing)

Contact a radiation physicist or consultant to specify radiation containment requirements.

GE Equipment Delivery Requirements
The items on the GE Healthcare Site Readiness Checklist are REQUIRED to facilitate equipment delivery to the IS site. Equipment will not be delivered if these requirements are not satisfied.

These drawings indicate the placement and interconnection of the listed equipment components. These drawings are not construction or site preparation drawings. Customer remains ultimately responsible for preparing the site to accommodate the operation of such equipment in compliance with GE Healthcare's written specifications and all applicable federal, state, and/or local requirements.

* REQUIRED REFERENCE *

Senographe Essential Pre Installation Manual
5160036–12–8EN

A mandatory component of this drawing set is the GE Healthcare Pre Installation manual. Failure to reference the Pre Installation manual will result in incomplete documentation required for site design and preparation.

Pre Installation documents for GE Healthcare products can be accessed on the web at:
www.gehealthcare.com/siteplanning
All such equipment are to be furnished and installed by customer or their contractors.
