Any deviation from these drawings must be communicated in writing to and reviewed by your local GE Healthcare Installation Project Manager prior to making changes.

- Make arrangements for any rigging, special handling, or facility modifications that must be made to deliver the equipment to the installation site. If desired, your local GE Healthcare Installation Project Manager can supply a reference list of rigging contractors.
- Provide for refuse removal and disposal (e.g. crates, cartons, packing)
- Contact a radiation physicist or consultant to specify radiation containment requirements.

GE Equipment Delivery Requirements

The items on the GE Healthcare Site Readiness Checklist are REQUIRED to facilitate equipment delivery to the IS site. Equipment will not be delivered if these requirements are not satisfied.

* REQUIRED REFERENCE *

Senographe Crystal
Pre Installation Manual
1478113

A mandatory component of this drawing set is the GE Healthcare Pre Installation manual. Failure to reference the Pre Installation manual will result in incomplete documentation required for site design and preparation.

Pre Installation documents for GE Healthcare products can be accessed on the web at:
www.gehealthcare.com/siteplanning
NOTE:
- Anchors supplied by GE (for non-seismic areas only)
- Hole diameter in the floor: .47" [12mm]
- Inserts to be used (quantity): Hifi HSL-3 M8/20 (6 items)
- Minimum floor thickness: 4.72" [120mm]
- Tightening torque: 25 Nm
- The floor surface must remain horizontal and flat within ±0.9" [±23mm] per meter after installation of the Gantry.
