**GE Healthcare**

**Customer Site Readiness Requirements**

- Any deviation from these drawings must be communicated in writing and reviewed by your local GE Healthcare Installation Project Manager prior to making changes.
- Make arrangements for any rigging, special handling, or facility modifications that must be made to deliver the equipment to the installation site. If desired, your local GE Healthcare Installation Project Manager can supply a reference list of rigging contractors.
- Provide for refuse removal and disposal (e.g. crates, cartons, packing)
- Contact a radiation physicist or consultant to specify radiation containment requirements.

**GE Equipment Delivery Requirements**

Items 1 through 8 on the GE Healthcare Site Readiness Checklist are REQUIRED to facilitate equipment delivery to the installation site. Equipment will not be delivered if these requirements are not satisfied.

**GE Healthcare Site Readiness Checklist**

** Inspections**

- Site conditions are determined to be safe and secure.
- Site conditions are determined to be in accordance with the building codes and standards specified in the equipment installation drawings.
- Site conditions are determined to be in accordance with the building codes and standards specified in the equipment installation drawings and must meet clearance requirements. Deviations that meet applicable requirements and have been reviewed and approved by the local code enforcement agency are permitted.

**Comments**

If “N”, please enter action plan or action required.
