GE Healthcare

Introducing the
GE Centricity* Clinical Archive

A vendor neutral archive (VNA) solution†; helps speed up treatment decisions, reduce costs by unifying patient images and documents across multiple vendor systems, departments, specialties and locations.

† - Centricity Clinical Archive includes the following product components: Centricity Enterprise Archive, Centricity Enterprise Web - Patient Information View module, Centricity Enterprise Web, Caradigm eHIE, Centricity Clinical Gateway, NextGate MatchMetrix EMPI, PACSGEAR PacsSCANTM

Healthcare Today:
Siloes of data, closed systems

- Patient information is **siloed**
- Multi specialty formats are **incompatible**
- Clinical Specialists are **frustrated**
- Treatment decisions are **slow**
- Time and money are **wasted**

Contributors to poor patient experience
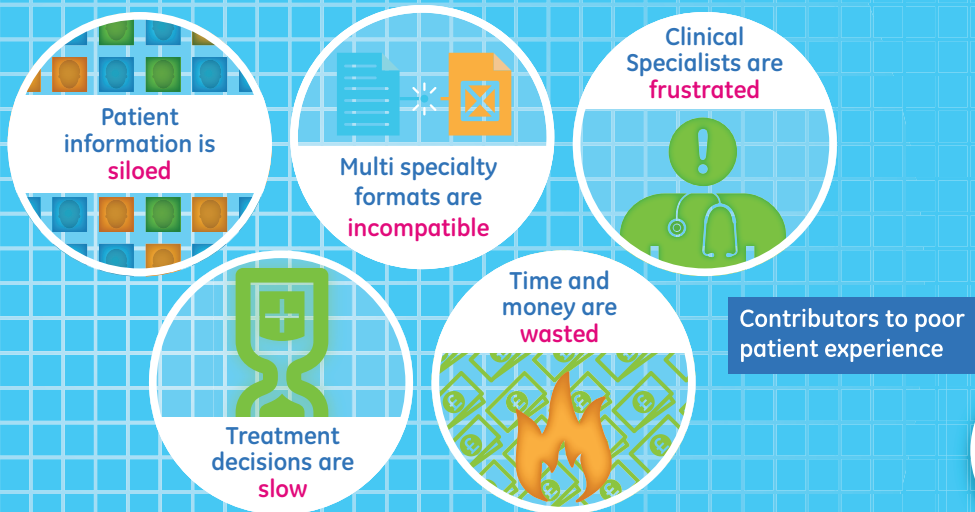

DID YOU KNOW?
GE Healthcare's VNA managed ca 165 million imaging studies in 2012**

With GE Healthcare, the future is now:

What it is

- 4 level model for medical information management
- Interoperable standards enabling unified access to patient information
- Innovation from a company with a proven track record
