Productivity Assessment

You are not alone

Are you utilizing your system in order to meet your current needs?

GE Healthcare is here to help identify opportunities to optimize current functionality, reduce costs, and enhance business performance. Through our Productivity Assessment service, we will conduct a technical and business overview to assess your system utilization and integration. In addition, we will highlight recommendations that can be used for current and future state planning to help improve workflows and efficiencies.

IMPROVED PERFORMANCE

Identifying opportunities to improve system utilization and cost reductions enables business and technical performance to thrive.

ENHANCED CARE

By pinpointing your staff's needs, training to improve efficiency and productivity will help lead to enhanced patient care and satisfaction.

EASE OF FUTURE PLANNING

We will help you recognize where your biggest opportunities exist, allowing ease of future planning.

1. Do you ever wonder if you are underutilizing your current system?
2. Do you want to know how you can better utilize your system in order to meet your current needs?
3. Was the last time you upgraded your system the first time you had it installed?
4. Do you ever wonder if potential improvements are really worth the cost?

If you have answered yes to any of the above questions, we are here for you.

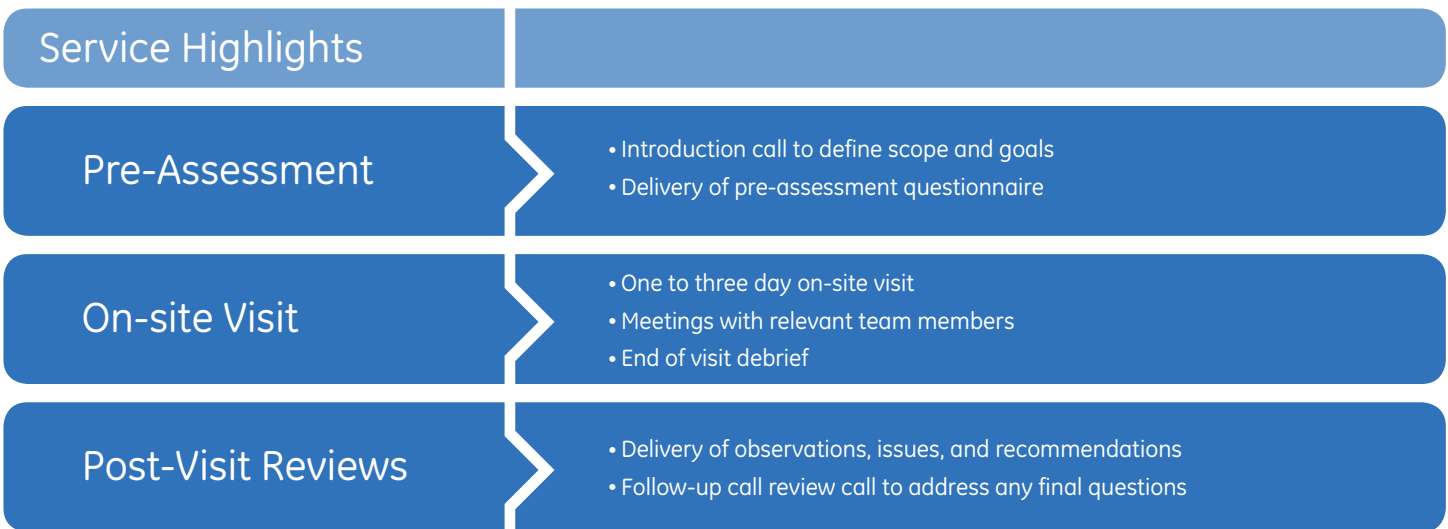

- On average, GE Healthcare Consulting teams perform hundreds of consulting engagements every year.
- 100% of surveyed productivity assessment customers were satisfied with the productivity consultants' knowledge and expertise.
- 80% of surveyed customers are highly likely to implement productivity assessment recommendations.
- 93% of surveyed customers are highly satisfied with productivity assessment analysis.
