1 INTRODUCTION

1.1 OVERVIEW

MR Smart Subscription (MRSS)

MR Smart Subscription, a subscription service that provides convenient, continuous access to the latest commercially available application software for MR tool in one simple annual subscription. As part of implementing the MR Smart Subscription solution at the site, GE Healthcare will provide additional hardware or software (e.g., a server or virtual machine) to enable functionality. The Edison Health Link (EHL) hardware or the Edison Health Services software platform enables the deployment of the MR Smart Subscription hosted applications.

Hepatogram Plus+:

Refer to the DICOM Conformance Statement for Hepatogram Plus+ for the Information Object Definition of the new summary series.

Refer to the DICOM Conformance Statement of Edison Health Link (EHL) for the Query/Retrieve functionality used as part of Hepatogram Plus+ workflow on EHL. (No modification done to series or Study)

Magic Neuro: Refer DICOM conformance statement of SyMRI PACS Browser.

Quantib ND: Refer DICOM Conformance statement for Quantib AI / Quantib ND.

Breastscape: Refer DICOM Conformance statement for Olea Sphere.

suiteHEART: Refer DICOM Conformance statement of Suite DXT.

DICOM Conformance statement resources

SN	Application Name	Owner	Resources
1	Hepatogram Plus+	Resoundant	https://www.resoundant.com/eifu
2	Edison Health Link Platform	GE HealthCare	https://www.gehealthcare.com/products/interoperability/dicom/it-platform
3	Magic Neuro	SyntheticMR AB	Click on Help from SyMRI PACS Browser interface for DICOM conformance statement.
4.	Quantib ND	Quantib BV	DICOM Conformance statement for Quantib AI / Quantib ND through www.quantib.com/support
5.	Breastscape	Olea Medical	DICOM Conformance statement through support@olea-medical.com
6.	suiteHEART	NeoSoft	Click on About from Suite DXT for the DICOM conformance statement.
