Any deviation from these drawings must be communicated in writing and reviewed by your local GE Healthcare Installation Project Manager prior to making changes.

Make arrangements for any rigging, special handling, or facility modifications that must be made to deliver the equipment to the installation site. If desired, your local GE Healthcare Installation Project Manager can supply a reference list of rigging contractors.

Provide for refuse removal and disposal (e.g. crates, cartons, packing materials). Contact a radiation physicist or consultant to specify radiation containment requirements.

These equipment IS drawings indicate the placement and interconnection of the listed equipment components. These drawings are not construction or site preparation drawings. Customer remains ultimately responsible for preparing the site to accommodate the IS and operation of such equipment in compliance with GE Healthcare’s written specifications and all applicable federal, state, and/or local requirements.

*REQUIRED REFERENCE*

Innova Plus
Pre Installation Manual
5314528-2-1EN

A mandatory component of this drawing set is the GE Healthcare Pre Installation manual. Failure to reference the preIS manual will result in incomplete documentation required for site design and preparation.

Pre installation documents for GE Healthcare products can be accessed on the web at:
