

# Reimagine How Technology Can Improve Community Health

## Efficiently deliver informed care while thoroughly documenting with remarkable speed

Community Health Centers (CHCs) are dedicated to the mission of providing high-quality, patient-centered care at a low cost to the most vulnerable and underserved patients in our communities. CHCs play a leading role in the nation's transformation to value-based care, and **Virence Health is committed to supporting your mission** and your leadership like never before.

As pioneers in this transformation, many centers have pushed their IT systems to the limit – only to find that providers still struggle to efficiently navigate the increasingly complex and rapidly changing considerations for decision-making while at the same time complying with the ever-growing and changing documentation requirements. These systems still can't serve their unique needs or keep up with evolving care delivery and payment models. Virence Health is increasing its focus on this very important issue.

**We're collaborating with CHCs** to reimagine how technology can improve community health. Our innovation is combining tools for comprehensive care delivery, financial management, population health, patient engagement, analytics, and connectivity into a single solution specifically designed for CHCs. A solution that will only be available from Virence Health, **Community Health Solution**.

This flexible solution will enable your providers to deliver **informed care** more efficiently than other systems on the market while thoroughly documenting **with remarkable speed**. Envision the day when your financial and grant personnel can more efficiently and effectively fund your mission, and your providers can enjoy practicing again. **Join us for the journey.**

## Join us for the Journey

Imagine a system to help you deliver **informed care** more efficiently.

*It's emerging.*

Visualize the day when you can thoroughly document with **remarkable efficiency**.

*It's imminent.*

Envision a time when you can more efficiently and effectively **fund your mission**.

*The time is now.*

Virence Health is committed to helping you **accelerate your transformation** to value-based care.

*Your future is with us.*

Increased colorectal screening **43%**<sup>1</sup>

## Enhance Care Quality

*Deliver more informed care.*

**Access more complete data** – Synthesize data from your center, other care settings, and claims into one patient view.

**Deliver evidence-based care** – Help ensure consistent adherence to care guidelines with clinical decision support at the point of care that is regularly updated with evidence-based guidelines from recent medical literature.

**Close the loop** – Track referrals to completion and integrate clinical data from other care settings into your workflow.

**Act on insights** – Comprehensive data analytics help you evaluate provider performance against key quality metrics and identify potential care gaps.

Accelerated payments by **22%**<sup>3</sup>

## Strengthen Financial Performance

*Efficiently and effectively fund your mission.*

**Optimize traditional revenue streams** – Manage eligibility and claims within the workflow, handle multiple primary insurance carriers, and accommodate sliding fee-scales.

**Reduce cycle time** – Increase first-pass claim approval rates with available automated claim scrubbing.

**Easily aggregate data for reporting** – Leverage the solution's flexible design and disciplined database structure to address your centers' unique data requirements within providers' routine workflow, and then easily aggregate the data to support grants and alternative revenue streams.

*“SimpleChart is a huge time-saver because we can order, add a diagnosis, and document all at the same time with one command. I don't know how we'd see all the patients we see otherwise.”*

– Administrator

Saved **1 hour** per provider per day<sup>2</sup>

## Increase Provider Efficiency

*Thoroughly document with remarkable speed.*

**Begin with CHC-specific content** – Designed by providers.

**Accelerate chart reviews** – Seamlessly integrate external data into workflows so providers spend less time searching.

**Integrate and coordinate care** – A single, integrated system enables medical, dental and behavioral health providers to efficiently deliver high-quality, coordinated care.

**Simplify data entry** – Automate multiple processes with one command and document by exception with SimpleChart.

**Optimize workflows** – Uncover hidden inefficiencies using available workflow telemetry services.

Increased accuracy of risk premium by **\$12** pmpm<sup>4</sup>

## Continue to Trail Blaze Value-Based Care

*Accelerate your transformation with cutting-edge tools.*

**Identify and manage patient cohorts** – Stratify patient populations against risk, clinical, and financial status and prioritize care team activities to optimize value.

**Reduce cost and increase access** – Leverage available cost and utilization analytics to help reduce the total medical expense. Increase access with group visits.

**Improve performance** – Track quality metric performance and then drill down by site, provider, or patient to identify actionable insights.

**More accurately document patient risk** – Algorithms help you identify documentation and suspected risk gaps so you can more accurately code and document patient risk.

## Join us for the journey

Our new IT solution for CHCs is just the beginning of our commitment to you. It is the first step in an evolution into a comprehensive, fully integrated, interoperable and intelligent cloud-based software solution that will combine decades of healthcare expertise with cutting-edge capabilities and a modern user experience. One that puts patients where they belong – at the center of care. One that only Virence Health can deliver.
