Intrauterine Pressure Catheters and Cables

Quality accessories. Easy to use.

In labor and delivery, patient comfort and safety are top priorities. Our Corometrics™ monitor family offers features you know and trust, including the latest advancements in maternal and fetal monitoring and high-quality monitoring accessories.

GE intrauterine pressure catheters and cables are designed to help you deliver high-quality care by providing accurate measurements.

Catheters
• Easy catheter insertion with a rounded transducer tip
• Flat catheter body to deflect away from tissue, minimizing trauma during insertion
• Fast liquid infusion with a flexible, clear amnioinfusion line with tethered cap, delivering gravity feed at 55 ml/mm
• Inaccurate readings minimized via splash-resistant connector

Cables
• Easy identification of cable issues with built-in cable check feature
• Convenient zero/re-zero with a single button and indicator light for re-zero confirmation

Our equipment. Our accessories. Simply compatible.

You can trust GE Healthcare accessories and consumables to keep your clinical devices working efficiently.

• One contact point for expert advice
• Simplified ordering process
• Fast delivery
• Quality support at every step
