Individual Solutions

Digital Tools for Vscan Air

Powerful imaging. Powerful connections.

Vscan Air™ is a wireless, handheld ultrasound system that enables whole-body scanning and delivers crystal clear images. And now, Digital Tools for Vscan Air takes your handheld ultrasound experience one step further – by connecting you to a suite of user-centric digital tools through an optional Vscan Air subscription.

You asked. We listened.

Committed to meeting your needs, we developed tools to address your challenges. From improved security and image management to easy collaboration, you can get more from your handheld ultrasound experience.

With Individual Solutions, you get access to:

Verisound™ Gallery¹

Manages the storage and sharing of your handheld ultrasound images with end-to-end encryption, supporting HIPAA-compliant, cloud-based PACS workflows. Focus on care, not compliance.*

MyRemoteShare²

Easily and securely connect with colleagues and educators in real-time with audio, video, and screen share capabilities

What you need. One subscription.

We listened, we heard you — and we addressed your requests.

More control

Decide how and where to store your exams and images, and what should remain on your device

More privacy

HIPAA compliant with end-to-end data encryption for sharing data from the Vscan Air app

More convenience

Securely share and store directly from the Vscan Air app

More collaboration

Securely share exams or start real-time screen sharing, right from the Vscan Air app

See more. Treat faster.

Verisound Gallery

Anywhere image access

Easily upload exams to the cloud from the Vscan Air app with this secure cloud-based PACS data and image storage and review solution that supports DICOMweb™ export.

Eliminate the need to hold data on mobile device to minimize data privacy risks

Share studies for training, education, and consultations

Share images digitally to get faster second opinions and referrals

Access images and data from anywhere*

MyRemoteShare²

Connect with colleagues and educators in real-time with audio, video, and screen share capabilities. Simply start a remote share session from the Vscan Air app for training and support.
