
Table of Contents

Chapter 1 – Introduction to Site Preparation

1.1	Overview	1-1
1.1.1	Purpose	1-2
1.1.2	Prerequisites	1-2
1.1.3	Project Coordination	1-2
1.1.4	Purchaser's Responsibility	1-3
1.2	Manpower Requirements	1-4
1.3	Additional Considerations.....	1-5
1.3.1	Information.....	1-5
1.3.2	Unloading Area	1-5
1.3.3	Cleaning	1-6
1.3.4	Work Scheduling.....	1-6
1.4	Regulatory Requirements.....	1-7
1.5	Time Schedule.....	1-8
1.5.1	Site Preparation	1-8
1.5.2	Job Progression	1-8
1.5.3	System Installation	1-9
1.5.4	System Options	1-9
1.6	Site Safety	1-10
1.6.1	Site Management.....	1-10
1.6.2	Flammable Material Storage	1-10
1.6.3	Head Protection	1-10
1.6.4	Fire Protection	1-11
1.6.4.1	Using a Fire Extinguisher.....	1-11
1.6.4.2	Types of Fire Extinguishers.....	1-11
1.6.5	Electrical Protection	1-12
1.6.5.3	Power Tools.....	1-12
1.6.5.4	Outlets and Extension Cords	1-13
1.6.6	Eye and Face Protection.....	1-13

Chapter 2 – System Specifications

2.1	Overview	2-1
2.1.1	Gantry	2-2
2.1.2	Integrated Power Supply (IPS)	2-3
2.1.3	Patient Table	2-4
2.1.4	Acquisition Station	2-4
2.1.5	Collimator Cart	2-5
2.1.6	Hawkeye System (Option)	2-6
2.2	Weights and Dimensions of Unpackaged Components	2-7

Chapter 3 – Unloading, Access and Conveyance

3.1	Unloading Area	3-1
3.1.1	Cleaning	3-1
3.2	Access Path to Installation Area	3-1
3.2.1	Access Specifications	3-2

Chapter 4 – Physical Planning of the Site

4.1	General	4-1
4.2	Selecting the Site	4-2
4.3	Room Size	4-4
4.4	Operator Safety	4-5
4.4.1	Room Shielding	4-5
4.4.2	Background Radiation	4-5
4.4.3	X-ray Scatter Plots	4-6
4.4.3.1	Scatter Isocontour Plot	4-6
4.4.3.2	Elevation Scatter Plot	4-8
4.5	Required Systems Clearances	4-9
4.5.1	Room Size Dimensions	4-9
4.5.2	Regulatory and Service Clearances	4-10
4.5.3	Regulatory Clearances	4-10
4.5.4	Regulated Minimum Working Clearance by Major Subsystem	4-12

4.5.5	Terms and Definitions	4-12
4.5.6	Typical Room Layout.....	4-14
4.5.7	Minimum Room Layout.....	4-16
4.6	Room Layouts	4-18
4.6.1	Scan Room Design Considerations	4-19
4.7	Floor Preparation.....	4-23
4.7.1	Floor Loading	4-24
4.7.1.1	Center Of Gravity (COG) Location.....	4-26
4.7.1.2	Reinforced Area.....	4-26
4.7.2	Leveling and Flattening the Floor Area	4-27
4.7.2.1	Floor Checking Procedure	4-27
4.7.3	System Cables	4-30
4.7.3.1	Preparation of Built-in Floor Ducts	4-31
4.7.3.2	Alternatives to Floor Ducts.....	4-33

Chapter 5 – Electric Installation Requirements

5.1	Voltage Requirements	5-1
5.2	Power Requirements	5-2
5.2.1	Power Circuits	5-4
5.2.2	Grounding Requirements	5-5
5.2.3	Additional Requirements.....	5-6
5.3	X-ray Exposure Warning Lights	5-8
5.4	Exposure Light Specifications	5-8
5.5	Exposure Lights Cable	5-8
5.6	X-ray Exposure Interlock.....	5-9
5.7	Interlock Signal Specifications	5-9
5.8	Exposure Door Switch Cable	5-9
5.9	Customer’s Responsibility	5-10
5.10	Inter-Cabling	5-10

Chapter 6 – Environmental Conditions

6.1	Recommended Site Environment Specifications	6-1
6.2	EMC Compliance.....	6-2

6.2.1	Ventilation (gas) Studies	6-2
6.3	Thermal Loads	6-2
6.4	Environmental Tests.....	6-4
6.4.1	Power Source Test.....	6-4
6.4.2	Temperature Tests	6-4

Chapter 7 – Connectivity

7.1	General	7-1
7.2	LAN Connection	7-1
7.3	IP Address	7-2
7.4	Telephone Line or Broadband Connection for Insite.....	7-2
7.5	Broadband For Remote Connectivity.....	7-3
7.5.1	InSite Broadband - Add System(s) to a Connected Site	7-4
7.5.2	Remote Service Broadband - Customer Site Assessment	7-5

Appendix A – Pre-Installation Checklist

A.1	Site Information Contact Persons.....	A-1
A.2	Site Checklist	A-2
A.3	Network Readiness Table	A-8
A.4	Power & Grounding Survey	A-9

Appendix B – Weights, Measurements, Power, Floor and Environmental Requirements

B.1	Weights and Measurements	B-1
B.2	Site Requirements	B-4
B.3	Power Requirements	B-4
B.4	Environment Specifications	B-6

Appendix C – Unpacking and Conveying

C.1	Overview	C-1
-----	----------------	-----

C.2	Unpacking Tools	C-2
C.2.1	General Order of Operations	C-3
C.3	Gantry.....	C-4
C.3.1	Gantry Unpacking and Conveying	C-5
C.3.1.1	Unloading the Gantry Using a Crane	C-5
C.3.1.2	Unloading the Gantry with a Fork Lift.....	C-9
C.3.2	Wheeling the Gantry to the Clinic.....	C-11
C.4	Hawkeye System Integrated Option.....	C-12
C.5	System Shipped without Hawkeye Option	C-13
C.5.1	Checking Crate Contents.....	C-16
C.6	Patient Table.....	C-17
C.6.1	Table Unpacking and Conveying	C-17
C.7	Collimator Cart Unpacking	C-19
C.1	Unpacking the IPS.....	C-20
C.2	Unpacking the Detectors	C-21
C.3	Conveyance Access and Clearance	C-22
C.3.1	Access Specifications	C-22

Appendix D – EMC Compliance

D.1	General Scope	D-1
D.2	Electromagnetic Emission.....	D-1
D.3	Electromagnetic Immunity.....	D-1
D.3.1	Limitations Management.....	D-1
D.4	Limitations of Use.....	D-2
D.4.1	External Components	D-2
D.5	Installation Requirements & Environment Control	D-2
D.5.1	Cable Shielding & Grounding.....	D-2
D.5.2	Radiated Emissions	D-2
D.5.3	Power Supply Distribution - Subsystem & Accessories	D-2
D.5.4	Stacked Components & Equipment	D-2
D.5.5	Static Magnetic Field Limits	D-3
D.5.6	Electrostatic Discharge Environment & Recommendations	D-4
