

NAVIFY® Decision Support portfolio

NAVIFY Tumor Board

Continuity of Cancer Care.

Virtual. Secure. Uncompromised.

NAVIFY Tumor Board is a cloud-based workflow product that allows oncology treatment teams to compile and display relevant, aggregated data in a single, holistic patient dashboard.

With NAVIFY Tumor Board, multidisciplinary team (MDT) meetings can continue without disruption even when teams can not meet face to face.

NAVIFY Tumor Board is proven

- Allows transition to a virtual setting with ease¹
- Virtual setting use is as efficient as face-2-face meetings¹
- Improves tumor board user satisfaction²

Keeping Sensitive Data Safe and Secure*

All patient data is hosted on secure cloud infrastructure, encrypted in transmission, and at rest.

Clinical Decision Support apps Ecosystem

Add hyper-relevant data to tumor board meetings.

Expert Support from Day One

Consultation and support for the implementation of virtual tumor boards.
