

GE HealthCare

Focus on care, not compliance

Verisound™ Gallery

Simplify your ultrasound image management

Storing patient ultrasound images and staying in compliance shouldn't add to your workload. **Verisound Gallery** is a cloud-based solution designed to simplify image storage, access, and sharing — so compliance runs quietly in the background.

Anywhere image access

Securely access and review ultrasound images from the cloud, when you need them.

Simplified workflow

Integrated, cloud-based PACS workflow optimizes how you store and manage images.

Built-in compliance

HIPAA-compliant workflows with end-to-end encryption help protect patient data without adding extra steps.

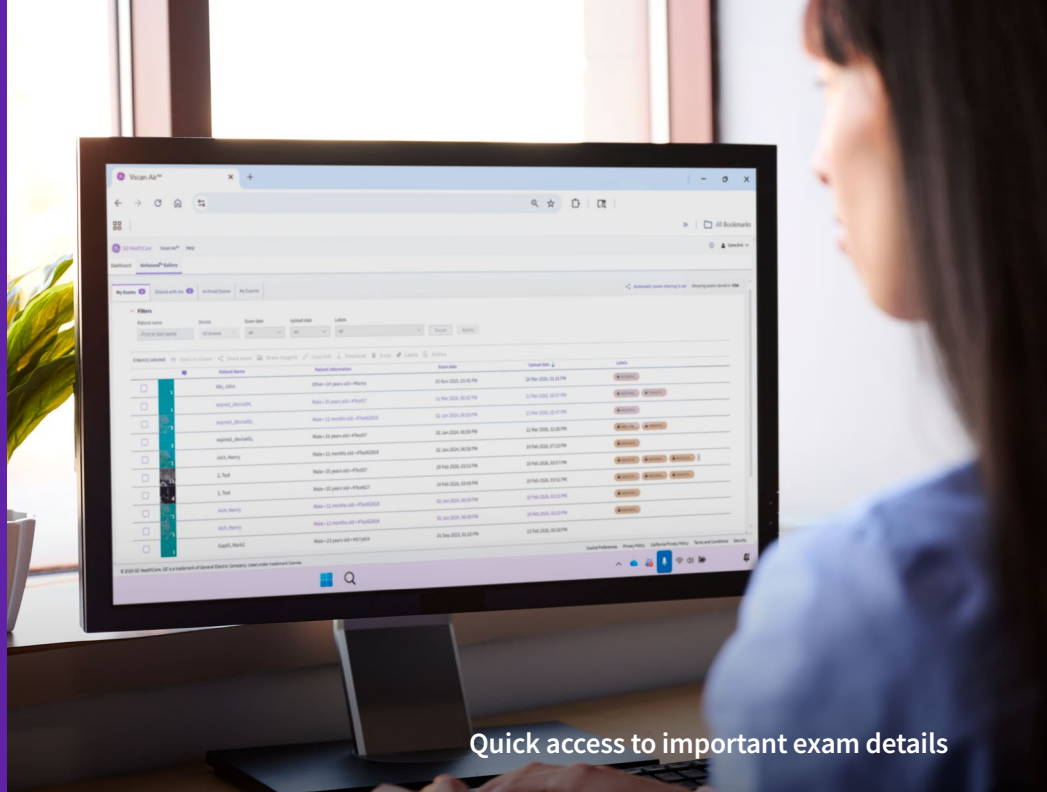

Secure sharing

Easily share images for second opinions, referrals, training, and care coordination.

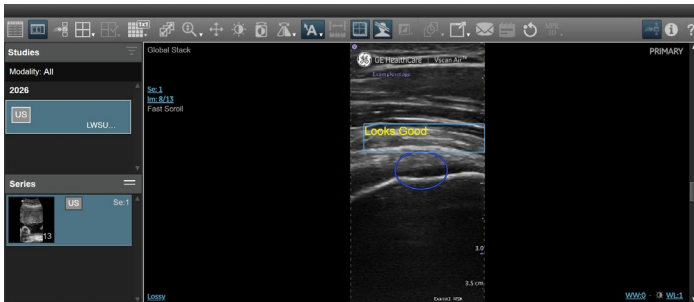

You've got one less thing to worry about when Verisound Gallery is managing your ultrasound images.

When security and compliance are built in, you can focus on what matters — and take full advantage of these Verisound Gallery capabilities

Quick access to important exam details

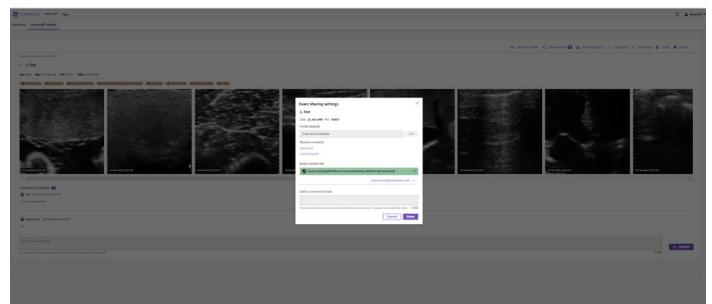

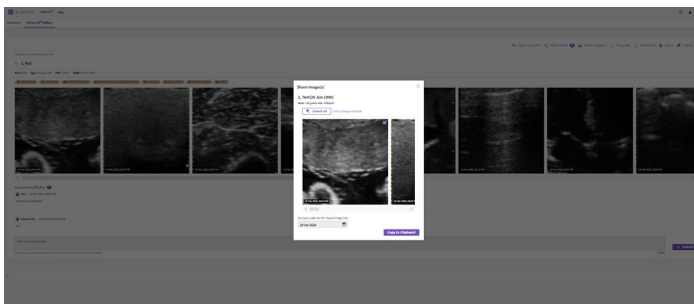

Easily annotate images

Secure DICOM® Viewer

Quickly share images and exam settings to the cloud

Contact your GE HealthCare representative to learn how Verisound Gallery can support your practice.

Products mentioned in the material may be subject to government regulations and are not available in all countries. Shipment and effective sale can only occur after approval from the regulator. Please check with local GE HealthCare representative for details.
