

TAILORED EXCEPTIONAL SERVICE

B105P/M, B125P/M, B155M
Patient Monitors

Peace of mind. By design.

Quality care depends on consistent patient monitoring. We designed **B1x5 P/M VSP 3.0** range of patient monitors for **ease of service** and **remote support**. And we back them with flexible offerings in maintenance, troubleshooting, and repair. All to help your monitor to deliver vital clinical data and peace of mind to your staff.

As healthcare organizations strive to balance costs, improve efficiency, and enhance care, GE Healthcare lets you choose service plans that deliver high reliability, optimum uptime, enhanced service life, and low total ownership cost.

Maintenance, Updates, Training and Education. And More.

Remote troubleshooting to minimize downtime

Our remote troubleshooting tool lets GE experts remotely access system logs and diagnostic reports. **InSite® Remote Service Platform (RSvP)** provides remote connectivity between GE Healthcare medical devices and GE Healthcare support experts. These remote support sessions for interactive troubleshooting and application support can quickly diagnose, and fix many problems on the spot, significantly reducing onsite repair time.

Easy and quick repairs for continuous care

Design for service means the critical parts most likely to need service are simple to access for repair or replacement. Easy availability of original parts and accessories helps in fast issue resolution.

Software updates for better security

Software updates to your monitors' operating systems, applications, and cybersecurity protections provide a great way to sustain optimum performance and safeguard patients' information.

Service contract that fits you best

GE Healthcare's **flexible service* contracts** help ensure that your monitors are maintained with the flexibility you need depending on your needs and budget.

Training to keep your staff up to speed

Training and education get your biomed staff up to speed quickly – so they deliver prompt, quality service.

*Contact a GE Healthcare Representative for more information about available service contracts options and training offerings in your region.

Product may not be available in all countries and regions. Full product technical specifications are available upon request.
