

# Imperial College NHS Trust

Programme start:  
2015

Scope:  
27,000+ Imaging,  
Ultrasound and  
Biomed assets

## Customer Needs

- Drive improvements in clinical engineering quality & efficiencies
- Consolidate fragmented approach to contract management
- Improve visibility on inventory and service costs
- Update CMMS tool & RTLS system

## Solutions Implemented

- Maintenance of entire imaging, ultrasound & biomedical fleet
- Standardised approach with dedicated onsite team
- Implementation of AssetPlus™ CMMS system and supported the roll out of RTLS asset tracking
- Technology planning to support long-term capital acquisitions in ultrasound

## Outcomes Achieved

- £1.2M in operational savings over 5 years
- Harmonised ultrasound fleet – reduced the training burden
- Full staff transition of client's service employees to GE Healthcare
- Clear visibility of installed base of assets

**Contract extended in 2020**
