

GE Healthcare

GE Healthcare Learning Institute

Customer Lifecycle Education Program

Improving healthcare outcomes through lifecycle training

Asia-Pacific

GE Healthcare Learning Institute or **GEHCLI** is a virtual institution set up by GE Healthcare to address the need for healthcare education. In collaboration with leading healthcare professionals within the region and globally, GEHCLI offers technical, clinical and leadership education, including both online and classroom sessions as well as immersion programs.

We believe the continuous education in recent clinical advances, technology and application are critical part to support our users in helping to deliver the highest quality patient care.

Improving healthcare outcomes through lifecycle training

Get Ready

Stand Me Up

Make Me an Expert
