GE Healthcare Security Portal Registration and Usage Instruction

Step 1: Registration

Note: Customers automatically gain access to the Product Security Portal when they register on https://www.gehealthcare.com/security.

1) Visit https://www.gehealthcare.com/security. Click the Register tab in top right navigation bar.
2) Enter your business email address. If you have already registered, you will be prompted to login.
3) Enter your contact and employer information.
4) After completing the registration process, you will receive an email asking you to create a password.
5) After you have set your password return to https://www.gehealthcare.com/security and click Sign In in the navigation bar.
6) Sign in with your credentials.

Step 2: Set favourite products by doing a quick search

1) Select PRODUCTS from menu
2) Select ALL PRODUCTS and search with keyword **AltiX BT22**
3) Select **Mac-Lab/CardioLab/INW Server - AltiX BT22** from search & click 'Add Product Favourite':

Step 3: Get Email Notifications regarding Security Updates

Subscribe to security update notifications to receive notifications on your favourite products (as described in Step 2).
